

AMERICAN CAR CRAFT INSTRUCTION

CHALLENGER REAR BUMPER INSERT

PART # 152008

PARTS INCLUDED:

___ 2-Stainless Inserts

___ 1-Adhesive Promoter Pack

This new and unique bumper insert has been designed to fit into the recess of the factory bumper adding a custom look to what would otherwise be a plain looking rear end.

Your new inserts come to you with a protective liner. Do not remove liner until installation is complete.

1. Thoroughly scrub clean the bumper insert area with rubbing alcohol to remove any and all waxes and or paint treatments. Test your cleaning by applying a piece of masking tape to the area you just cleaned. If you have achieved a tack remove the tape then swipe the entire area with the adhesive promoter provided. This promoter need only be swiped once and with a thin coat. Do not saturate. This promoter will insure a nice strong bond long term.
2. Before you permanently install the new insert place it in position to get acquainted with just how you will set the part in place. The attachment tape is very aggressive and will not allow you to reposition it once you have set it in place so go slowly and carefully. Once you are ready simply peel the red release liner from the back of each insert and then carefully set them in place pressing firmly to set. Peel the protective liner from both sections to complete the installation.
