

ADVANCE ADAPTERS INC.

**P/N: 717040 or
P/N: 717040-NP**

CHEVY VORTEC GEN. III V8 TO JEEP UNIVERSAL 1976-1986

KIT CONSISTS OF:

No.	Qty.	Part No.	Description
1.	1	717040L	CHEVY V8 FENDER WELL HEADER LEFT
2.	1	717040R	CHEVY V8 FENDER WELL HEADER RIGHT
3.	2	716562	2-1/2" COLLECTOR GASKET
4.	2	717513	2-1/2" COLLECTOR RING

INSTALLATION PROCEDURES: These headers are designed to fit on the outside of the frame rails. They may require some modifications to the stock fender wells for proper fit. These headers are designed to fit a Vortec Gen. III GM head. The stock metric manifold bolts should be used to fasten the headers to the heads and they should be torqued to the GM specifications. The stock gasket should also be retained for sealing the header to the head. Due to the welding process, the header flange will sometimes warp slightly. To straighten the header and seal it to the head surface, we recommend bolting the header to the head starting with the center bolts and working outward until all bolts are tight.

The header warranty is void if modified or any type of header wrap tape is used.

717040L

717040R

SPECIAL NOTE: The components packaged in this kit have been assembled and machined for specific type of conversions. Modifications to any of the components will void any possible warranty or return privileges. If you do not fully understand modifications or changes that will be required to complete your conversion, we strongly recommend that you contact our sales department for more information. This instruction sheet is only to be used for the assembly of Advance Adapter components. We recommend that a service manual pertaining to your vehicle be obtained for specific torque values, wiring diagrams and other related equipment. These manuals are normally available at automotive dealerships and parts stores.
