

AFCO RACING INTRODUCES

LIGHTWEIGHT SPRINT CAR DZUS MOUNT RADIATORS

AFCO Racing Products is proud to announce our new Lightweight Dzus Mount Radiator for Sprint Car applications. This new lightweight radiator can be used on both Wing and Non-Wing Sprint Cars. This radiator has a dry weight of 12.15 lbs. and clears inside the frame rail hoods. All AFCO Radiators are 100% TIG-welded with no epoxy used and are 100% pressure tested.

FEATURES & BENEFITS

- Single row 1.50" lightweight performance core.
- Crossflow double pass design.
- 1.50" outlet.
- Two 6 AN male fittings and two 8 AN male fittings.
- Great for Wing and Non-Wing Sprint cars.

MADE IN THE U.S.A.

- Laser cut mounts allow for Dzus tabs.
- Can be mounted vertically or angled.
- All aluminum TIG-welded construction.
