

AFCO RACING INTRODUCES

## '09-'15 CADILLAC CTS-V HEAT EXCHANGER

The AFCO direct-fit '09 -'15 Cadillac CTS-V heat exchanger is the ultimate way to improve the efficiency of the supercharger's performance. The core thickness has been more than doubled and the new design is a double-pass version to vastly improve the efficiency on the heat exchanger. This heat exchanger is a simple install that includes all of the necessary hardware and instructions without the need for any modifications to the car. The AFCO CTS-V heat exchanger is available in satin or black finish and can be installed in as little as 2 hours. It is constructed with 100% aluminum and is fully TIG-welded utilizing a furnace brazed core, and is 100% pressure tested.

## FEATURES & BENEFITS

- Direct fit Heat Exchanger, no drilling or cutting required.
- Single row 1-1/2" core vs OEM single row 5/8" core.
- Provides as much as 20° F drop in coolant temperature.
- Available in satin or black finish.
- All hardware and detailed installation instructions included.
- Double pass design for maximum temperature drop.
- Maintains a lower and more consistent heat exchanger coolant temperature after a WOT run.

### '09-'15 CADILLAC CTS-V HEAT EXCHANGER

Overall Width	Overall Height	Overall Thickness	Core width	Core Height	Core thickness
21.00"	15.00"	2.06"	17.88"	15.00"	1.50"

AFCO provides the best in performance engine cooling equipment.
