<b>Part #</b>	10-10100 / 71-10100	<b>Tools Required:</b>	<b>Parts List:</b>
<b>Make:</b>	Ford	Knife	1 Air Filter
<b>Model</b>	<b>Year</b>	<b>Engine</b>	
F250	'03-'06	V8-6.0L (TD)	
F350	'03-'06	V8-6.0L (TD)	
F450	'03-'06	V8-6.0L (TD)	
F550	'03-'06	V8-6.0L (TD)	
Excursion	'03-'06	V8-6.0L (TD)	

**Step 1**  
Remove the intake system which includes the air filter. Separate the air filter from the intake system.

**Step 2**  
With a knife or sharp blade carefully cut along the edge of the OE air filter from the side opposite seal. Discard the air filter internals.

**Step 3**  
Carefully slide the air filter into the canister as shown above. Pay close attention to the alignment of the mounting slots relative to the filter housing.

**Step 4**  
Re-assemble the air filter assembly. Verify engagement grooves are positioned as shown to ensure correct installation. Reinstall assembly back into engine.

Note: Filter Cleaning and Re-oiling: When cleaning your aFe filter, be sure to use only aFe's "Restore Kit" aFe P/N: 90-50000 gold oil aerosol, or aFe P/N: 90-50500 gold squeeze bottle oil
