Instruction Manual P/N: 51-74106 / 54-74106

Make: **Chevrolet / GMC** Model: **Colorado / Canyon** Year: **2015-2016** Engine: **V6-3.6L**

- Please read the entire instruction manual before proceeding.
- Ensure all components listed are present.
- If you are missing any of the components, call technical support.
- Ensure you have all necessary tools before proceeding.
- Do not attempt to work on your vehicle when the engine is hot.
- Disconnect both the negative battery terminal before proceeding.

Retain factory parts for future use.

Label	Qty.	Description	Part Number
A1	1	Pro 5R (Blue Media)	24-91092
A2	1	Pro DRY S (Grey Media)	21-91092
B	1	Tube	05-74106B1
C	1	Housing	05-74106B2
D	1	Plug, Urethane	05-01361
E	1	Seal Trim (7/16") (18 inches)	05-00072
F	2	Clamp, T-bolt (3-1/4" -3-9/16")	03-50292
G	1	Coupling, Silicon Hump Reducer	05-01330
H	2	Screw, Torx: M4 x .7 x 8mm	03-50491
I	1	Hose, Breather (1/2")ID	05-01396

Installation will require the following tools:

10mm & 8mm nut drivers, flat head screwdriver & #3 Phillips screwdriver, pliers, T20 & T30 drivers, 10mm & 11mm deep sockets & drivers

Note: Not legal for use in California. The use of this device in any on-road or off-road vehicles registered with the California Dept of Motor Vehicles (DMV) is strictly prohibited.

**Figure A****Refer to Figure A for Step 1**

Step 1: Use an 8mm nut driver to loosen the stock clamps at the throttle body and the air box (1). Disconnect the breather hose from the engine cover and remove (2). Use a T-30 & 8mm nut driver to remove the four bolts (3) holding down the engine cover/intake tube. Remove the oil (4) cap and remove the engine cover/intake tube. Reinstall the oil cap.

Figure B

Refer to Figure B for Step 2

Step 2: Disconnect the mass air flow sensor (5). Disengage the wire loom clip (6) from the air box. Remove the upper half of the air box with a #3 Phillips screwdriver and remove the air filter.

Figure C

Refer to Figure C for Step 3

Step 3: Use a 10mm nut driver to remove the two nuts (7) holding the air box and set aside. Remove the air box with the attached air inlet by pulling up to release air box from its mounting grommet.

Figure D

Refer to Figure D for Step 4

Step 4: Rotate the coolant reservoir hose clamps (8) so the ears point up.

**Refer to Figure E for Step 5**

Step 5: Using a Torx 20 driver remove the mass air flow sensor (9) from the upper half of the air box and install it on the aFe intake tube with the two supplied screws. Do not overtighten.

Figure F

Refer to Figure F for Step 6

Step 6: Install the supplied trim seal on the opening of the aFe air box.

Refer to Figure G for Step 7

Step 7: Remove the two grommets with metal spacers (10) from the lower half of the air box and install them onto the aFe air box.

Figure H

Refer to Figure H for Step 8

Step 8: Install the aFe air box into the vehicle by pushing down the air box pin into the rubber grommet and through two front studs. Secure air box with the two nuts removed in step 3 with a 10mm nut driver.

Figure 1

Refer to Figure 1 for Step 9

Step 9: Slide the aFe filter and clamp into the aFe housing and push it in until it locks into place. Do not tighten clamp at this time.

Figure J

Refer to Figure J for Step 10

Step 10: Install the supplied T-bolt clamps on the silicone hump coupler. Install the coupler with clamps on the throttle body. Tighten the clamp at the throttle body only at this time.

Figure K

Refer to Figure K for Step 11

Step 11: Install the aFe intake tube into the vehicle. Slide into the air filter first. Then slide it into the coupler. Tighten all clamps.

Figure L

Refer to Figure L for Step 12

Step 12: Re-connect the Mass Air Flow Sensor (11).

Refer to Figure M for Step 13

Step 13: Remove the stock breather hose rubber elbow (12) from the valve cover.

Figure N

Refer to Figure N for Step 14

Step 14: Install one end of the supplied silicone hose (13) on the valve cover elbow fitting with the stock clamp and then route to the port on the aFe intake tube.

Figure 0

Refer to Figure 0 for Step 15

Step 15: Use the provided plug (14) to close additional air inlet if you want to completely seal the air box. Best performance gain is obtained by having more flow (no plug). Check all the components are tight and secure. Your installation is now complete. Thank you for choosing aFe Power!

NOTE: Check all bolts, clamps, and connectors after 200 miles.

Warranty

General Terms:

- aFe warrants their products to be free from manufacturer's defects due to workmanship and material.
- This warranty applies only to the original purchaser of the product and is non-transferrable.
- Proof of purchase of the aFe product is required for all warranty claims.
- Warranty is valid provided aFe instructions for installation and/or cleaning were properly followed.
- Proper maintenance with regular inspections of product is required to insure warranty coverage.
- Damage due to improper installation, abuse, unauthorized repair or alteration is not warranted.
- Incidental or consequential damages or cost, including installation and removal of part, incurred due to failure of aFe product is not covered under this warranty.
- All warranty is limited to the repair and/or replacement of the aFe part. To request Return Goods Authorization ("RGA"). Upon receipt of the RGA, you must return the product to the address provided in the RGA, freight prepaid and accompanied with a dated proof of purchase and the RGA. Upon receipt of the defective product and upon verification of proof of purchase, aFe will either repair or replace the defective product within a reasonable time, not to exceed thirty days.

Product Category	P/N Prefix	Warranty duration
Direct OE Replacement Filters	10, 11, 30, 31, 71, 73	Life of the vehicle
Racing Filters	18	1 year
Universal	21, 24, 72	2 years
Air Intake Systems	50, 51, 54, 55, 75	2 years
Exhaust Systems	49	2 years
Intercoolers & Intercooler Tubes	46-2	2 years
Intake Manifolds	46-1	2 years
Differential Cover	46-7	Life of the vehicle
Exhaust Manifolds	46	2 years
Throttle Body Spacers	46-3	2 years
Fluid Filters	44	90 days
Pre-Filters	28	2 years
Heavy Duty OE Replacement	70	2 years
PowerSports OE Replacement	81, 87	2 years
PowerSports Intake Systems	85	2 years

No other warranty expressed or implied applies nor is any person or advanced FLOW engineering authorized to assume any other warranty. Some States do not allow the exclusion or limitation of incidental or consequential damages or do not allow limitations on how long an implied warranty lasts, so the above limitations or exclusions may not apply to you. This warranty gives you specific legal rights, and you may also have other rights which vary from State to State.
