## 2 TON PROFESSIONAL DUTY “TUNER” SERVICE JACK

Model 200T

AFF 200 Pro-Series Floor Jacks are designed to meet the lifting needs required for low profile “Tuner” and high performance vehicles. Similar to the AFF 350 Series, the 200T incorporates a safety overload valve for added protection and is built to meet ANSI standards for performance and safety.

- Our Model 200T floor jack is built with our traditional AFF quality, perfect for today’s lower-profile “tuner” vehicles. It quickly lifts from a low 2-3/4” to 20” with AFF’s double-pumper advantage (see inset).
- Universal joint technology and precision release valve for a more controlled release
- Pinned steel saddle (1” stud) with rubber pad for added vehicle protection
- Tough UV powder-coated frame for greater protection and durability
- One-piece, foam-covered 50” handle for ease of positioning, pumping and storage
