

AMERICAN FORGE & FOUNDRY, INC.™

35 TON AIR/HYDRAULIC AXLE JACK W/ Extension Screw

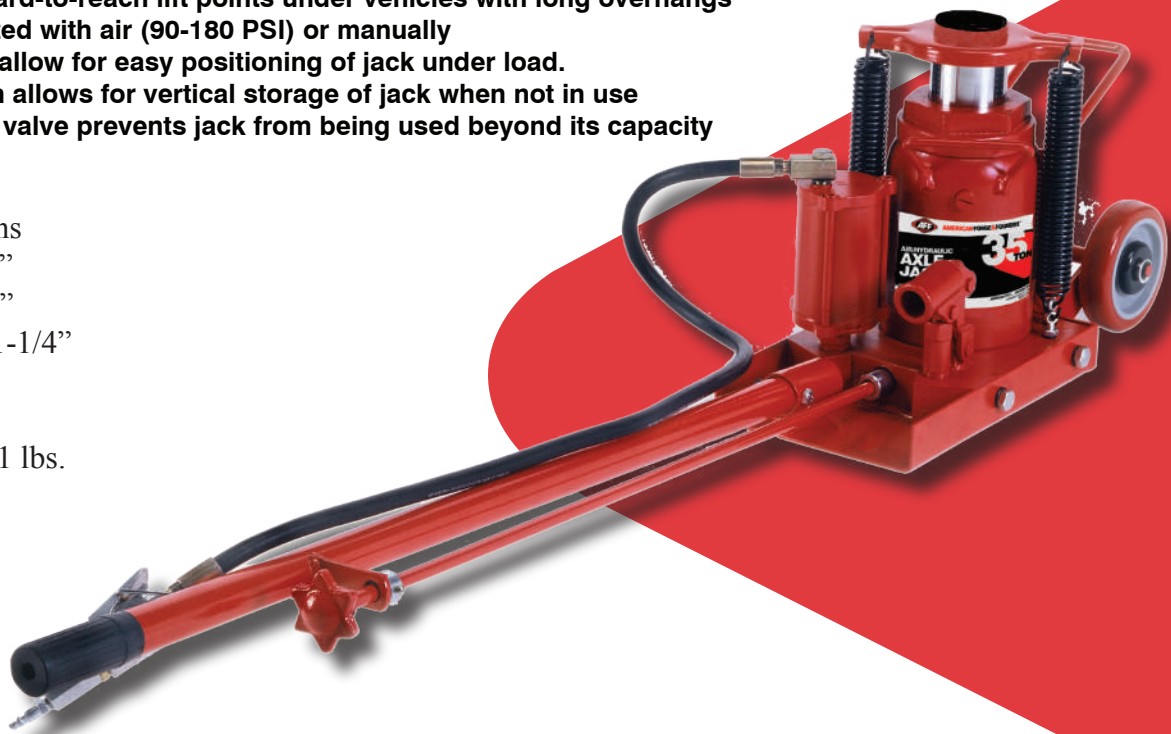

Model 535A

Designed for heavy-duty use in lifting trucks, buses, trailers or other heavy-duty equipment. AFF's Model 535A is compact, easy to maneuver and highly efficient. Large polyurethane wheels for durability and easy positioning.

- Lifts up to 21-1/4" with screw extension
- 55" long for hard-to-reach lift points under vehicles with long overhangs
- Can be operated with air (90-180 PSI) or manually
- Large wheels allow for easy positioning of jack under load.
- Unique design allows for vertical storage of jack when not in use
- Built-in safety valve prevents jack from being used beyond its capacity
