Model 548SD

- This SUPER HEAVY DUTY, 3 Stage 60/40/20 Ton Air Hydraulic Jack covers a wide variety of demands from the Heavy Duty Trucking, Agricultural, Fleet, Construction and Military sectors

- An integral Descent Metering Valve maintains a controlled and safe lowering of the load

- Double polished chromed pistons allow for much tighter tolerances which reduce oil bypassing and reduced ram scoring
- Air assisted lowering speeds up ram retraction
- Built in overload safety valve prevents damage to unit due to excessive load
