

Our Proprietary Technology

PERSONALIZE YOUR EXTERIOR AND PROTECT YOUR INTERIOR

Every custom Truck Full Body Kit and Floor Liners by Air Design have been thoroughly designed to reach the ultimate beauty, combined with Function, Durability and Style.

Air Design's Full Body Systems and Interior Protection are based on our SUPER R.I.M. overmolding proprietary technology which incorporates high impact multilayer polymers, and high pressure Injection Molding Polyurethanes.

A NEW STANDARD IN FENDER FLARES

Air Design Fender Flares are molded using High-Tech Multilayer Black ABS brought from Austria, and Top Coated with OEM approved 2K Satin Black Paint; They are the only OE type Fender Flares within the accessories market that features a mechanical fixation to the body line, to eliminate all vibration and paint damage, as well as the only ones that incorporate a Mud Flap that

widens the bottom of the Flare, protecting your vehicle from road debris.

AIR DESIGN[®] SUPER BOLT[®]

Our exclusive innovative Super Bolt (PAT.PEND) System adheres to any smooth surface allowing the part to be mechanically fastened without having to drill your vehicle's sheet metal.

FLOOR LINERS

Manufactured with our High Performance "Soft Touch-Heavy Duty" TPR engineering material for high strength and durability. Special features such as our integrated Stainless Steel Foot Rest and the exclusive Hexa-Liner surface pattern, bring on a new level of driving comfort that feels ultimately personal while delivering all needed interior protection from liquid spillage and waste.
