SMART SPLICE™ PRO Series A/C

Air Conditioning Line Repair

Everything you need for A/C line repair in one convenient kit (18 Repairs).

The SMART SPLICE™ PRO Series – A/C includes 18 repairs, making it ideal for any repair shop. With Smart Splice connectors for straight, and 90° line-to-line repairs, straight line-to-hose, and hose-to-hose, technicians have everything needed to quickly and effectively repair or build A/C lines.

Smart Splice line repair products are superior to traditional compression fittings thanks to AirSept's proprietary sealing technology that contributes to long service life. A unique HNBR seal sleeve dramatically expands the sealing surface and a high-tech anti-vibration tension ring ensures repair durability in heavy vibration automotive applications.

SMART SPLICE™ PROSeries Trans and P/S

Transmission and Power Steering Line Repair

Everything you need for transmission and power steering line repair in one convenient kit – 16 repairs

- 5 Minute Line Repair/No Special Tools
- OE Approved
- Leak-Free to 2600 PSI

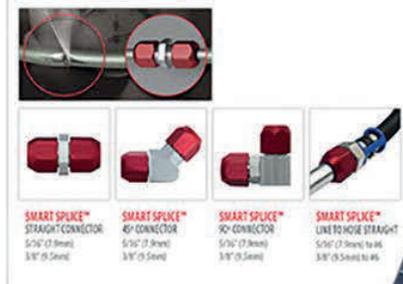

The Smart Splice Pro Series – Trans & P/S includes 16 repairs, making it ideal for any repair shop. With Smart Splice connectors for straight, 45°, and 90° line-to-line repairs along with Smart Splice connectors for line-to-hose repairs, technicians have everything needed to quickly and effectively repair or build almost all transmission lines and power steering return lines.

Smart Splice line repair products are superior to traditional compression fittings thanks to AirSept's proprietary sealing technology that contributes to long service life. A unique HNBR seal sleeve dramatically expands the sealing surface and a high-tech anti-vibration tension ring ensures repair durability in heavy vibration automotive applications.

SMART SPLICE™ Line-To-Hose Connector

OE-APPROVED

Quickly Connect Metal Line To Rubber Hose

PROBLEM:

Replacing an entire A/C line is often labor intensive and very time consuming.

SOLUTION:

Quickly connect A/C Reduced Barrier Hose to metal line using AirSept's Smart Splice™ Line to Hose connector.

Seal technology superior to traditional compression fittings

Self-adjusting, anti-vibration tension ring

HNBR seal sleeve better than an o-ring

Precision designed for leak prevention

Unique crimping system

Meets OEM performance and durability requirements

Leak-proof Line Splice™ technology on the metal side of the connection

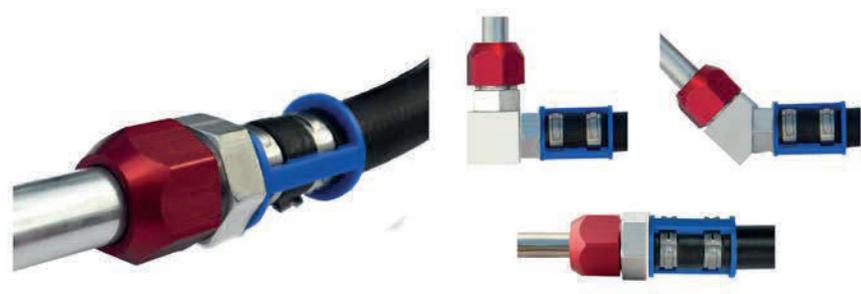

Superior hose crimp technology on the rubber side

Installs in 5 minutes

Master kit includes assembly tools

Also available in Tray Three of the

Smart Splice™ Ultimate System

- Trans Oil Cooler Lines*
- Engine Oil Lines*
- Engine Oil Cooler Lines*
- Coolant Lines*
- Heater Lines*

DESCRIPTION	PART NO.
Smart Splice Barbed Connector	
5/16" OD Line to 5/16" ID Hose	76763
3/8" OD Line to 3/8" ID Hose	76762
SMART SPLICE™ Barbed Connector 4 Pack (2) 3/8" OD Line to 3/8" ID Hose, (2) 5/16" OD Line to 5/16" ID hose	76765

SMART SPLICE™ LINE REPAIR EXTENSION KITS

QUICKLY REPAIR LARGE SEGMENTS OF DAMAGED A/C LINE

PROBLEM:

Metal A/C lines can develop multiple leak points due to corrosion, wear and external penetration.

SOLUTION:

Smart Splice Line Repair Extension Kits provide effective, durable leak repair for damaged A/C line segments up to 24" in length.

Five minute installation without line removal

Cut away the damaged length of metal A/C line, up to 24"

Install Smart Splice line to hose connectors on either end of remaining line

Measure and cut included A/C Reduced Barrier Hose to correct length

Insert hose segment and crimp to complete repair

DESCRIPTION	PART NO.

SMART SPLICE LINE TERMINATOR™

OE-APPROVED REAR A/C BLOCK-OFF KITS

Block Damaged or Unused A/C Lines- No Line R&R

PROBLEM:

Leaking rear A/C components or lines can reduce front A/C performance and require costly repairs.

SOLUTION:

AirSept's Line Terminator maximizes front A/C cooling and installs under the hood in five minutes.

Quickly And Effectively Blocks A/C Lines At The Damage Point Or At The Front System "Y"

Bypasses Leaking Rear Evaporators And Failed System Components

Helps Maximize Front A/C Performance

Eliminates Refrigerant And Oil Pooling In Rear A/C Lines

Also available in Tray Two of the Smart Splice Ultimate System

Patented

SMART SPLICE™ LINE TERMINATOR APPLICATION KITS

TAKE THE GUESSWORK OUT OF BLOCKING FAILED REAR A/C COMPONENTS

PROBLEM:

Blocking a failed rear A/C system requires line diameter measurements that can be hard to access and demand a special tool

SOLUTION:

AirSept Line Terminator Application Kits provide everything needed to block failed rear A/C systems, thanks to our unique year/make/model catalog lookup

Kits available for 1995-2015 Chrysler, Ford and GM SUVs, Trucks and Vans

Contains Line Terminator Block Fittings for both High and Low Side A/C Lines

Plastic Friction Caps Also Included to Seal the Blocked Side of the System, Keeping Lines Clean for Later Repair

Helps Maximize Front A/C System Performance

Eliminates Refrigerant and Oil Pooling in Rear A/C Lines

RECOVERY ONLY RECYCLE GUARD™

PROTECT A/C SERVICE EQUIPMENT FROM CONTAMINANTS

Trap All Debris, Sealant, Lubricant, Dye, And Other Contaminants As They Exit The HVAC System

Works with ALL COMMERCIAL REFRIGERANT TYPES

Available with SAE 1/4" Flare OR 1/2" ACME fittings

TRAPS METAL SHAVINGS / DESSICANT PARTICLES	✓
TRAPS BOTH STOP-LEAK AND SEAL SWELLER TYPE SEALANT	✓
MAINTAINS REFRIGERANT FLOW	✓
WORKS WITH ALL A/C SERVICE EQUIPMENT	✓
CAN BYPASS FILTER WITHOUT DISCONNECTING RECYCLE GUARD	✓
EASY DRAIN AND REPLACEABLE FILTERS FOR LONG SERVICE LIFE	✓

DESCRIPTION	PART NO.
Recycle Guard - Recovery Only, 1/4" SAE fittings, w/36" hose	72104
Recycle Guard - Recovery Only 1/2" ACME fittings, w/36" hose	72106

SERVICE FITTINGS

DESCRIPTION	PART NO.
1/8" Male NPT x 1/4" SAE Male Flare fitting	72912
1/8" Male NPT x 1/2" Male ACME Fitting	72913
1/4" SAE Flare x 1/8" NPT 45° Fitting	72911
1/2" ACME Female x 1/4" Male Flare	72913
1/4" MPT T-Handle Drain Cock	72910
1/4" Female Flare x 1/2" ACME Male	72918

RECYCLE GUARD™

PROTECT YOUR A/C SERVICE EQUIPMENT FROM DEBRIS, SEALANT, DYE, MOISTURE AND OTHER CONTAMINANTS

Prevent A/C Service Equipment Downtime

PROBLEM:

A/C system sealants and stop-leak products can disable and seriously damage expensive A/C service equipment.

SOLUTION:

AirSept's Recycle Guard traps sealant, dye and other contaminants as they leave preventing service equipment damage.

- Traps Stop-Leak And Seal Sweller Sealants
- Maintains Refrigerant Flow
- Easy Drain And Replaceable Filters For Long Life

The Only Filter That Traps ALL Types of Contaminants:

- Metal Shavings / Dessicant Particles
- Sealant -- Both Liquid (Seal Sweller Type) And Dry (Stop Leak Type)
- Dye, Excess Oil And Other Contaminants

PRACTICE SAFE A/C SERVICE

Use Recycle Guard With Every Repair

Contaminant-Clogged Solenoid Valve

COMPRESSOR GUARD™ PLATES

OE-APPROVED APPLICATION-SPECIFIC SUCTION FILTER PLATES

Prevent Compressor Comebacks

PROBLEM:

Most replacement A/C compressor failures are caused by metal and debris left behind in the system, even after system flushing.

SOLUTION:

Airsept's Compressor Guard filter plates install at the suction manifold and trap debris to protect new compressors.

Easy-install Filter Plates

OE-Fit Compressor Guard Filter Plates match the compressor's suction port manifold

Custom fit plates eliminate hose cutting

Plates maintain normal pressure and flow rates Trap debris before entering the compressor - avoid system failure

Install compressor guard – your best insurance against compressor comebacks

Filter Plates available for over 9,000 1978-2015 compressor applications

COMPRESSOR GUARD™ SCREENS

OE-APPROVED SUCTION SCREENS PROTECT YOUR COMPRESSOR REPAIRS

Compressor Guard Screens Stops Debris from Reaching the Compressor

PROBLEM:

Most replacement A/C compressor failures are caused by metal and debris left behind in the system, even after system flushing.

SOLUTION:

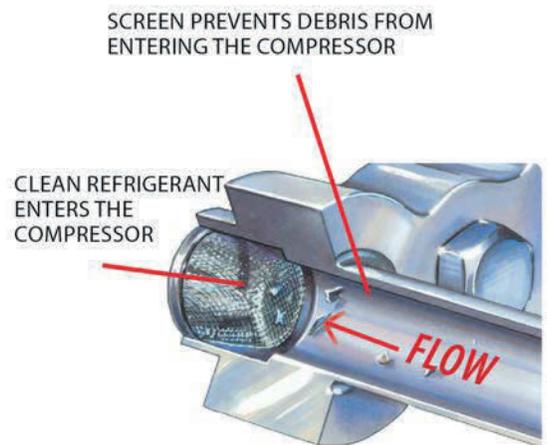

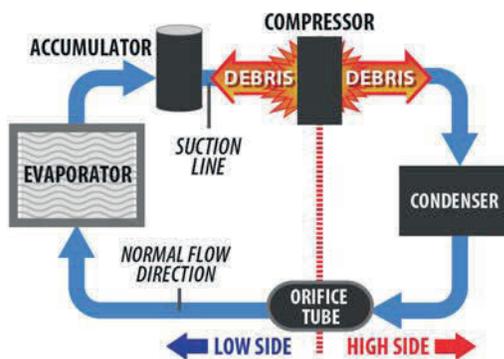

AirSept's Compressor Guard filter screens install in the suction line to trap debris and protect new compressors.

- CATCHES DEBRIS THAT FLUSHING MISSES
- EASY TO INSTALL
- NO CUTTING REQUIRED
- NO ALTERING FACTORY TUBING LAYOUT

RESISTS SMALL PARTICLE CLOG BUILDUP

- Clean Refrigerant Enters Compressor
- Maintains normal pressure and flow
- Install without cutting lines
- No new leak points
- Compressor Guard OE-fit design matches any suction block / manifold
- Compressor Guard multi-size screen kits cover over 95% of all suction port IDs

An Exploding Compressor Leaves Metal Shavings in the Suction Line

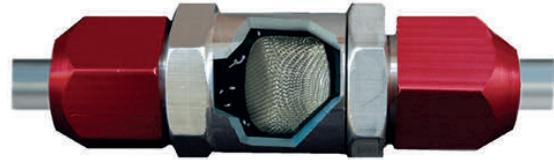

HIGH SIDE INLINE FILTER™

OE-APPROVED

Protect The Condenser, Other New A/C Components

- Traps metal shavings and non-metallic debris
- Tapered design forces debris to the side
- Maximizes refrigerant flow, even after catching debris
- Works with TXV or CCOT systems

OUR TAPERED FILTER THAT MAINTAINS REFRIGERANT FLOW WHILE TRAPPING HARMFUL DEBRIS PLUS OE-APPROVED SMART SPLICE™ SEALING TECHNOLOGY

DESCRIPTION	PART NO.
In Line SAE High Side Filter for 5/16', 3/8' or 1/2' Line	76100
In Line Metric High Side Filter for 10mm or 12mm Line	77100

MIO HIGH SIDE FILTER™

WITH MALE INSERT O-RING FITTINGS

A/C High Side Debris Protection

PROBLEM:

Debris can gather and stop refrigerant flow between compressor and condenser

SOLUTION:

Internal screen forces debris to the side, keeps center of tube open for refrigerant flow

Fits between compressor and condenser

Traps harmful metal and non-metallic debris

Tapered screen forces debris to side – maximizes flow

Works with TXV or CCOT systems

DESCRIPTION	PART NO.
In Line Male Insert O-Ring (MIO) High Side Filter	76107
MIO High Side Filter Service Kit (contains replacement filter screen and seal)	76108

R1234yf SERVICE COUPLERS AND FITTINGS

MANUAL SHUT OFF, SIGHT GLASS

DESCRIPTION	PART NO.
R134a Small Oil/Dye Injector	90020

PERMATUBE™

RADIATOR OVERFLOW TUBE REPLACEMENT KITS

Repair broken Radiator Tubes in Less than 5 Minutes

PROBLEM:

Radiator coolant overflow tubes are easily broken, often requiring replacement of the entire radiator.

SOLUTION:

AirSept's patented PermaTube replacement kit allows overflow tube replacement on the vehicle, eliminating radiator replacement or repair.

- OEM-Approved
- Costs less than radiator R&R
- Factory appearance and performance
- No radiator or coolant removal

REPLACEMENT KIT

RELOCATION KIT

DESCRIPTION	PART NO.
PermaTube Replacement Kit	65605
PermaTube Relocation Tool Set	65607
PermaTube Refill - 2 Pack	65602
PermaTube Refill - 5 Pack	65608

STEERING GUARD™

IN-LINE POWER STEERING FILTER

Protect your Power Steering Repairs from Debris

PROBLEM:

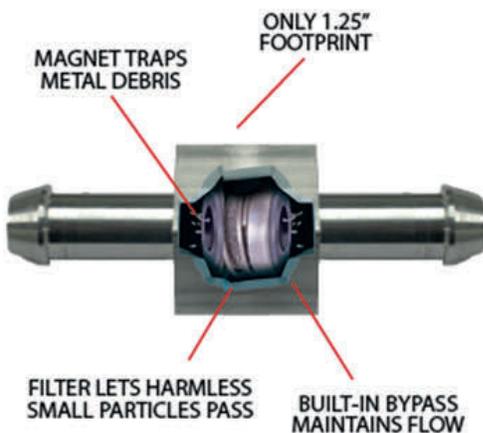

Debris left behind by a failed power steering pump can damage or disable the replacement pump.

SOLUTION:

AirSept's Steering Guard in-line filter protect power steering repairs from debris.

Dual filtration technology traps metal shavings and nonmetallic debris with built in bypass maintains flow no matter how much trash the filter catches

Easy to clean and reinstall. Added value for installers, peace of mind for customer

DESCRIPTION	PART NO.
Power Steering Guard - 3/8" Double Barb	74010
Power Steering Guard - 5/16" Double Barb	74012
Power Steering Guard - 3/8" Barb Snap Connector	74011
Power Steering Guard - 1/2" Double Barb Quick Connect	74016
Power Steering Guard - 5/8" Double Barb Quick Connect	74017

TRANSGUARD™

IN-LINE TRANSMISSION FILTER

Protects Transmissions from Oil Cooler Debris.

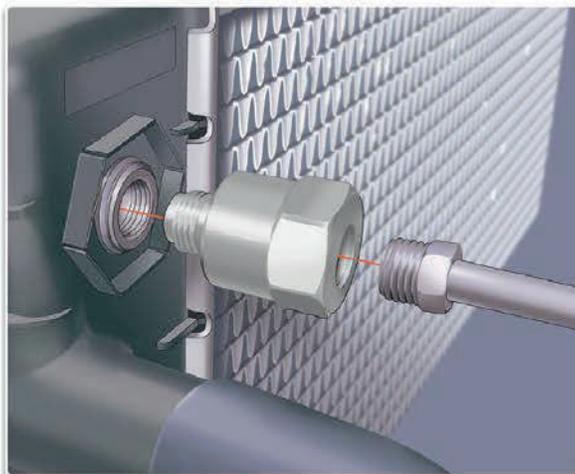

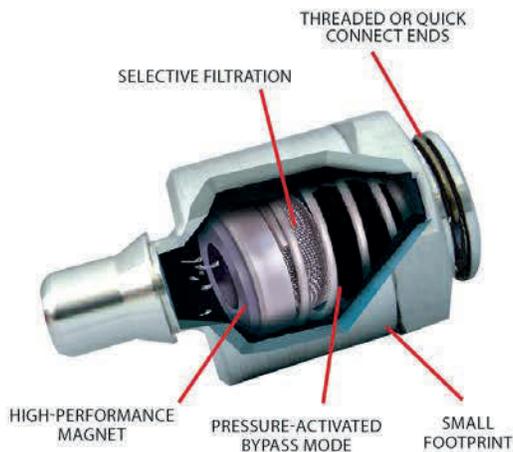

PROBLEM:

80% of transmission repair comebacks are caused by metal and debris left behind in the system, usually in the radiator oil cooler.

SOLUTION:

AirSept's TransGuard in-line filter protects transmission repairs from leftover debris.

- INSTALLS AT THE OIL COOLER OUTLET TO TRAP LEFTOVER SYSTEM METAL AND DEBRIS BEFORE IT ENTERS THE TRANSMISSION INLET
- INSTALLATION COMPLETE IN UNDER FIVE MINUTES
- FITS MOST APPLICATIONS WITHOUT ALTERING FACTORY CONFIGURATIONS
- UNIQUE BYPASS SYSTEM - NO MATTER HOW MUCH TRASH THE FILTER CATCHES, FLUID FLOW IS CONSTANT
- PROVIDES A GREAT OPPORTUNITY TO BOOST YOUR PROFITS AND INCREASE CUSTOMER SATISFACTION

GM EQUINOX / TORRENT BLEND DOOR REPAIR KIT™

OE-APPROVED

Repair GM A/C Blend Doors Without Dash or HVAC Case Removal

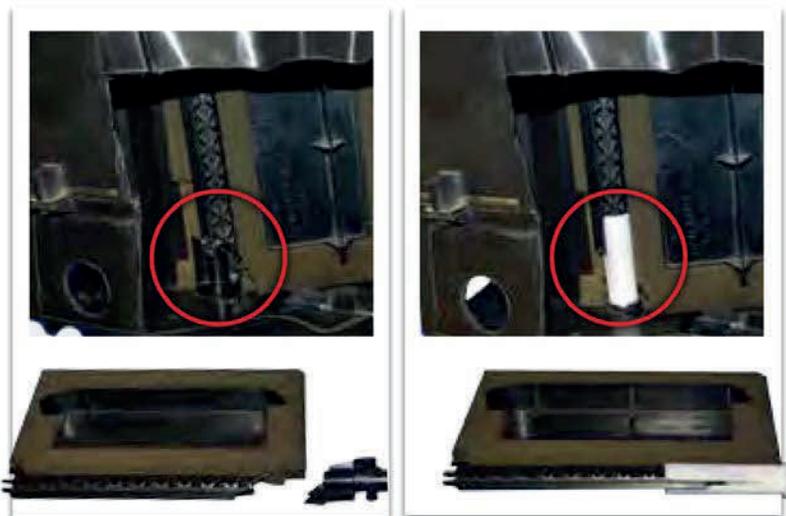

PROBLEM:

On 2005-2009 Equinox / Torrent models, the blend door shaft can crack where it connects to the actuator control. Previous repair method required over 12 hours of labor time for dashboard removal, and blend door replacement.

SOLUTION:

Airsept's patent pending Equinox/Torrent Blend Door Repair Kit™ allows repair of broken blend doors with no dash removal or opening of HVAC case.

- REPAIR ONLY THE DAMAGED SECTION, INSTEAD OF REPLACING THE ENTIRE DOOR
- REDUCES LABOR TIME BY UP TO 80%

DESCRIPTION	PART NO.
Equinox/Torrent Blend Door Repair Kit with Sleeve	68001
Equinox/Torrent Blend Door Repair Sleeve Refill Kit	68002

FORD F SERIES BLEND DOOR REPAIR KIT

PROBLEM:

On 1997-2004 Ford F-Series pickups, the HVAC blend door frequently fails at two different breakage points inside the case. Failure means loss of heated air flow into the cabin. Blend door replacement is a 7 to 9 hour job.

SOLUTION:

Airsept F Series Blend Door Repair Kit allows repair of the blend door without dash or HVAC case removal. R & R time is reduced to under two hours.

- No Dash Or Hvac Case Removal Necessary
- Two Different Size Repair Sleeves Provided To Make The Fix At Either Breakage Point
- No Special Tools - Just A Ratchet And Screwdriver
- Reduces Labor Time By 5 To 7 Hours

DESCRIPTION	PART NO.
Ford F Series (1997-2004) Blend Door Repair Kit With Sleeve	68003
Ford F Series (1997-2004) Blend Door Repair Kit Replacement Sleeve	68013

JEEP GRAND CHEROKEE BLEND DOOR REPAIR KIT

PROBLEM:

On 1999-2004 Jeep Grand Cherokees, the HVAC driver's side blend door often breaks at the actuator motor port. Failure means loss of heated air flow into the cabin. Blend door replacement is difficult and time consuming due to the blend door design.

SOLUTION:

AirSept's new patent pending Grand Cherokee Blend Door Repair Kit allows repair of the driver's side blend door.

Labor time is reduced by up to 75 percent.

- No Dash Or HVAC Case Removal Necessary
- No Special Tools - Just a Ratchet and Screwdriver
- Reduces Labor Time By 5 to 6 Hours

DESCRIPTION	PART NO.
Jeep Grand Cherokee (1997-2004) Blend Door Repair Kit - Driver Side With Sleeve	68006
Jeep Grand Cherokee (1997-2004) Blend Door Repair Sleeve - Driver Side	68017

FORD E-SERIES RETURN AIR DEBRIS SHIELD

OPTIMIZES A/C SYSTEM PERFORMANCE

PROBLEM:

Millions of 2002 - 2015 Ford E-Series vans suffer A/C cooling problems due to debris blocking air flow over the evaporator.

SOLUTION:

AirSept's patent pending Return Air Debris Shield (RADS) intercepts debris before it can reach the evaporator and optimizes A/C system performance.

- Installs In The Passenger Cabin - No Component Removal
- Four Easy Steps, Under Five Minutes
- No Special Tools Required
- Cars Rated Filter Media

DESCRIPTION	PART NO.
Ford E Series (2002 - 2015) Return Air Debris Shield (RADS)	90025

COOLING COIL COATING™

OEM-APPROVED

Eliminate A/C Odor For Up To Three Years

Cooling Coil Coating Combines a Powerful Antimicrobial with a Long-Lasting Acrylic Coating helps shed moisture and resists re-growth of odor-causing microorganisms. Effectively reduces odor for the long term.

DESCRIPTION	PART NO.
Cooling Coil Coating Evaporator Treatment - 4 ounce bottle, non-aerosol	60602
Cooling Coil Coating / Clean Evap Starter Kit 2 each Cooling Coil Coating - 4 ounce bottle 2 each CleanEvap - 8 ounce bottle 1 each Ulti-Flex Spray Delivery Tool	60611

A/C ODOR SHIELD™

ELIMINATE A/C ODOR UP TO ONE YEAR

Same powerful OE-Approved antimicrobial and acrylic coating as cooling coil coating

DESCRIPTION	PART NO.
A/C Odor Shield Evaporator Treatment - 4 ounce bottle, non-aerosol	60641
A/C Odor Shield / Clean Evap Starter Kit: 2 each A/C Odor Shield - 4 ounce bottle 2 each CleanEvap - 8 ounce bottle 1 each Ulti-Flex Spray Delivery Tool)	62650

OxyVap™

Click Lock 50 Pack / R134a 50 Low Side, 50 High Side for R134a A/C Systems	72925
Click Lock 10 Pack / R1234yf 10 Low Side, 10 High Side for R1234yf A/C Systems	72931
Click Lock 50 Pack / R1234yf 50 Low Side, 50 High Side for R1234yf A/C Systems	72935

ULTI-FLEX PRESSURE SPRAY TOOL™

OEM-APPROVED Precision Atomizing Tip

The Best Way to Apply Cooling Coil Coating, A/C Odor Shield, Cleanevap or any Automotive Fluid.

*Powerful cleaning action that assures Optimal Product Diffusion
Fast application with shop air
Bend to fit any underhood or undercar configuration
Durable metal construction, protective sheathing*

PATENTED ATOMIZING TIP

PROPRIETARY ANTI-SIPHON DESIGN

INFINITELY FLEXIBLE APPLICATOR

DESCRIPTION	PART NO.
Ulti-Flex2 Spray Delivery Tool	62644

MS1 SPRAY TOOL

EFFECTIVE, PENETRATING SPRAY APPLICATOR

Patented precision atomizing tip provides optimum liquid diffusion

- Creates Uniform Spray Coverage
- Shop Air Maximizes Penetration, Cleaning Power

DESCRIPTION	PART NO.
MS1 Spray Tool	62602

SEE BRIGHTER™

NON-ABRASIVE HEADLIGHT RESTORATION KIT

See Brighter™ removes clouding from polycarbonate lenses and restores light projection.

PROBLEM:

Clouding on car lights leads to dimmer headlights

SOLUTION:

See Brighter™ cleans clouded polycarbonate lenses giving headlights a brighter shine and better range

Apply in under 5 minutes

Two easy steps: Clean, Apply – Done!

No cleanup or dry time

Long lasting UV protection

DESCRIPTION	PART NO.
See Brighter™ Headlight Restoration Kit Single	60650
See Brighter™ Headlight Restoration Kit Counter Display 12-pack	60652

SPRING-LOCK MASTER ASSORTMENT

Spring-Lock Tools for Multiple Makes

Four lock release tools for most Ford and Chrysler LH series, sizes 3/8", 1/2", 5/8" and 3/4"

Two lock release tools for newer VW models

Two lock release tools for newer GM models

Ford Spring-Lock Tool Kit Sold Separately

DESCRIPTION	PART NO.
8 piece Spring Lock Tool Kit	90000
Ford / Chrysler Spring-Lock Tool Kit	90005

GM SPRING-LOCK TOOL KIT

Disconnects GM Spring-Lock Connections

Opens spring-lock connections on A/C high and low side hoses Contour Line

DESCRIPTION	PART NO.
GM Spring-Lock Tool Kit	90004

VOLKSWAGEN SPRING-LOCK TOOL KIT

OEM Approved Tool Easily Opens Spring-Lock Connections During A/C Service

*Use to open spring-lock connections on air conditioning high and low side hoses for access during service or repair
Spring-loaded clamp closes around hose end to minimize spray when line is disconnected*

DESCRIPTION	PART NO.
Volkswagen SSpring-Lock Tool Kit	90001

MERCEDES SPRING-LOCK RELEASE TOOL

Disconnects Mercedes Spring-Lock Connections Specially designed to disconnect Mercedes spring-lock connections during A/C service

Simply clamp onto spring-lock connection and press to release service hoses

DESCRIPTION	PART NO.
Mercedes Spring-Lock Release Tool	90002

VW/AUDI SPRING-LOCK RELEASE TOOL

Disconnecting spring lock connections on newer Audi, Volkswagen models

*Unique design for disconnecting spring lock connections on newer Audi, Volkswagen models
High quality tensile steel construction*

DESCRIPTION	PART NO.
VW / Audi Spring-Lock Tool Kit	90006

TOOLS OF THE TRADE
