

RACE PROVEN

Akrapovič has more than twenty years of experience in racing at the highest level of motorsport, with over 100 world champions on two and four wheels trusting its exhaust systems to give them the performance and results they need. It is this heritage and expertise that also makes Akrapovič the choice for BMW Motorsport. Performance, durability, and quality are all defining features in an Akrapovič race exhaust system and it is these elements, allied with passion and experience that are transferred into manufacturing and developing Akrapovič road-going systems. Exquisite standards of workmanship, the best materials, and market-leading design and technology are all embraced in every system for a road-going high-performance car. Combined with the unique and unrivalled sound produced by highly skilled engineers, an Akrapovič exhaust is not just a performance product – it is a work of art that looks and sounds as good as it performs.

Official Partner: BMW Motorsport

Akrapovič and BMW Motorsport are partners competing in the Deutsche Tourenwagen Masters (DTM) championship. With titles won every year since the German brand returned to the series in 2012, Akrapovič has provided the latest technological knowhow in high-performance exhaust systems and lightweight technology to give BMW the best advantage on the track.

In 2016, Akrapovič extended its official partnership with BMW Motorsport into the IWSC in which BMW Team RLL competes with two BMW M6 GTLMs, and at the iconic 24-hour race at Germany's Nürburgring.

Working together with BMW Motorsport's renowned racing department, Akrapovič creates unique exhaust systems that are developed to perfectly extract the power of the BMW M4 DTM and BMW M6 GT3. In 2014, Akrapovič brand ambassador Marco Wittmann became at that time the youngest German DTM champion as he powered his Akrapovič-equipped BMW M4 DTM to the 2014 title in only his second season in the championship – in his first he secured the Rookie of the Year award.

Akrapovič Evolution Line (Titanium)
with Carbon Fiber Tailpipes and Diffusor for the BMW M3/M4

25 YEARS AND COUNTING

Akrapovič is marking an important milestone in the company's history in 2016, when the Slovenian exhaust specialist celebrates its 25th anniversary. Since its inception in 1991, when founder Igor Akrapovič began tuning engines and making exhausts in his garage for local motorcycle racers, Akrapovič has grown to international recognition as the leading manufacturer of premium high-performance exhaust systems in the world. Racing has always been the lifeblood of Akrapovič, and, as the company celebrates its 25th anniversary, it also celebrated its 100th world champion, a feat achieved when Jorge Lorenzo (Movistar Yamaha MotoGP) won the MotoGP championship in 2015.

Akrapovič exhaust systems are renowned for increasing performance, their unmistakable sound, state-of-the-art designs, significant weight reduction, quality workmanship, and durability. This ethos has been in Akrapovič's DNA since the beginning, and the brand has grown to international prominence, standing proudly at the top of the performance exhaust manufacturer's tree.

Through the use of innovative technologies, including the development of titanium alloys, which has led to unmatched high-quality components produced and cast in its own in-house foundry, Akrapovič has pushed performance levels to outstanding heights and created a unique soundtrack for its exhaust systems. In addition, it has broken barriers in the design world. The impressive honours and numerous awards it has won for its ground-breaking exhausts, including the Red Dot product design awards, are a true recognition of everything Akrapovič has accomplished.

ENTERING A NEW DIMENSION WITH AKRAPOVIČ

High-performance exhaust systems
for BMW M

EXHAUST SYSTEMS FOR BMW M CARS

BMW M4 (F82, F83) / 2014-2016 / Evolution Line (Titanium)

+10.2 HP/5200 rpm / -7.1 kg (-22.0 %)

DISCLAIMER: All contents of this Catalogue, including but not limited to the text, graphics, images and photographs contained herein, and their layout ("Contents") are subject to protection under copyright, industrial property and/or other Products, product information and their representations are provided for informative purposes only. Discrepancies between the appearance in the Catalogue and the actual products or product information may exist. Akrapovič reserves the right to use additional elements for displaying its products, serving better representation only. Such elements do not represent Akrapovič products and are not subject to advertising, offer or sale nor does the present Catalogue represent an offer

made by Akrapovič. For actual information on specific products, their availability and specifications in each country, please contact Akrapovič or local Akrapovič authorized dealer. Not all products are necessarily available at every Akrapovič dealer. Availability of Akrapovič products is subject to Akrapovič's discrepancy, mainly based on inventory availability and manufacturing lead time. Akrapovič may at any time and at its own discretion change the design, equipment and delivery specifications, without any prior notice. All Akrapovič products must be used in accordance with the respective user's guide, with consideration of all safety instructions and precautions only. Akrapovič does not assume any responsibility for printing errors or misrepresentations in the present Catalogue and may change any of the information contained herein at any time.

WARNING: Because of the world-wide distribution of Akrapovič d.d. products, neither Akrapovič d.d. nor any of its subsidiaries make any representation that the products comply with the air and/or noise emissions laws, or labeling laws, of any jurisdiction. The purchasers are entirely responsible for informing themselves of the applicable laws where the products are to be used and to comply with those laws.
WARNING/USA: Various U.S. states and the U.S. federal government have individual laws regulating the use of aftermarket exhaust parts and systems, especially as those parts and systems modify, remove, or replace original equipment catalysts. Please consult the appropriate laws in your area before installing any aftermarket part or system on your vehicle to ensure compliance with all applicable laws. Neither Akrapovič d.d. nor any of their subsidiaries or the sellers of the parts or systems make any representation that any of their parts or systems comply with any such laws.

WARNING/California: California laws prohibit the use of any aftermarket exhaust part or system that modifies, removes or replaces original equipment catalysts unless the California Air Resources Board has issued an Executive Order regarding such part or system or unless the part or system is exempted by being used only on racing vehicles on closed courses. Neither Akrapovič d.d. nor any of their subsidiaries make any representation that any of their parts or systems has received such an Executive Order or that any of their parts or systems conform with the racing vehicles exemption. The purchasers are entirely responsible for informing themselves of applicable California laws and to comply with those laws.
