

Part No. ALL64230-64234

Spring Pre-Loader

Pre-loader allows use of a softer spring rate that is "pre-loaded" at ride height. The pre-loaded spring will have less rate increase as the suspension travels. For example, a 150 lb/in spring can be pre-loaded to 400 lbs. at ride height, but still only increases at a rate of 150 lb/in as suspension travels. The entire unit may also be exchanged with another unit with a different rate spring pre-installed to allow spring rate changes without affecting ride height. Commonly used on the rear coil-overs, pre-loader requires 3" I.D. spring, includes a thrust bearing set and fits most shocks. Note: Unit is typically installed with slotted inner half towards the shock body. Always check components for possible interference.

Part No.	Description
ALL64230.....	Pre-Loader For 10" Tall Spring
ALL64232.....	Pre-Loader For 12" Tall Spring
ALL64234.....	Pre-Loader For 14" Tall Spring

Part No.	Replacement Parts
ALL64212.....	3" Thrust Bearing Set
ALL99325.....	Inner Teflon Ring
ALL99326.....	Outer Teflon Ring
