

Part No. **ALL41014**

Hanging Brake Pedal Assembly

Universal brake pedal assembly includes everything to install a new hanging brake pedal and is ideal when replacing older style floor mounted brake pedal with under floor master cylinder, to a more convenient fire-wall location. Firewall mounted bracket is pre-drilled to accept Allstar power brake boosters or most manual brake master cylinders and includes a dash support bracket. Multiple pedal mounting holes allow arm to be positioned 5-7/8" to 11-7/8" from firewall mounting plate in 1-1/2" increments for desired pedal placement. Included 3/8"-24 clevis and threaded pushrod may be cut and re-threaded as needed depending on final pedal location.
