

Part No. ALL48017

## Electric Right Front Brake Shut-Off

Disable right front brake with the flip of a switch. Commonly found on dirt modified and late models, electric shut-off helps turn the car on entry when track conditions are heavy/wet. Kit electronically disables the right front brake yet allows brake pressure to bleed-off from the right front brake caliper unlike manual shut off valves. Detailed installation instructions are included.

### Contents:

- Brake Solenoid
- (2) 1/8" NPT To 3/16" Inverted Flare (3/8"-24)
