

Part No. ALL58001
ALL58002

Mono Ball Bearings

Mono balls are commonly used in fabrication of products including J-bars, control arms and trailing arms. Bearings have an external grease ring and orifice which allows the bearing to be installed in custom applications that can be externally lubricated.

Part No.	Description
-----------------	--------------------

ALL58001.....	5/8"
---------------	------

ALL58002.....	3/4"
---------------	------

ALL58001

Mono Ball I.D. = .625"

Mono Ball Height = .623"

Housing O.D. = 1.187"

Housing Height = .500"

ALL58002

Mono Ball I.D. = .750"

Mono Ball Height = .750"

Housing O.D. = 1.437"

Housing Height = .593"
