

Part No. ALL68720-68729

Ford 9" Floater Housing Kits (With Steel Hubs)

Housings are jig welded for correct alignment using a select used center section, new 3" O.D. x 3/16" wall axle tubes with 2.0" spindle pins and include fill and drain plugs. Kits also include Allstar Performance 5x5 hubs with 2.0" bearings, seals, locking spindle nut kits, 8-bolt rotor rings, Wilwood .810" or 1.25" 8-bolt rotors, a rotor bolt kit and 1" lug nuts.

NOTE: Axles are sold separately.

Part No.	Housing Width/Offset
ALL68720.....	60" / Centered
ALL68722.....	60" / 2" Offset
ALL68723.....	61" / Centered
ALL68724.....	62" / Centered
ALL68726.....	62" / 2" Offset
ALL68728.....	63" / 2" Offset
ALL68729.....	64" / Centered

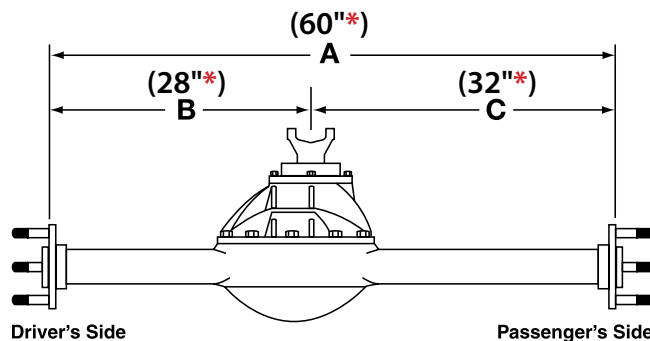

Tech Tip

Housing Measuring Diagram

Example: ALL68722 is 60" from hub face to hub face and the pinion is located 2" to the left of the housing centerline when viewed from rear of housing.*

Please measure and inspect housing before welding brackets or painting. Housing is non-returnable if modified or custom. Welding suspension brackets on rear end housings can cause warping. These housings use Allstar ALL72100 inner grease seals.
