

Part No. ALL81310
ALL81311

Bronze Distributor Gears

When installing a steel billet roller camshaft, a bronze distributor gear must be installed in place of the original cast iron gear. Gears made of premium aluminum bronze offer high strength to withstand the stresses created by high pressure oil pumps. Roll pins are included.

Part No.	Description
ALL81310	0.491" Dia. Shaft
ALL81311	0.500" Dia. Shaft
