

## SB Chevy Oil Pan Gasket Set

### INSTRUCTIONS

This gasket set contains a universal type pan gasket which incorporates "punch out" oil dipstick holes for left and right side dipsticks.

#### **Chevrolet built engines 1957-86**

262, 265, 267, 283, 302, 305, 307, 327, 350, and 400 small block.

Left side dipstick engines: 1957-79

Right side dipstick engines 1980-86

Strip the side rails from thier webbing and remove ONLY the "punch out" that will fit engine dipstick location. The other side will have an excess material protruding from under the pan. This will not interfere with the gasket sealing properly.
