

HOW TO DISABLE 3 LED STRIPS FOR ALPHAREX 2005-2011 TOYOTA TACOMA HEADLIGHTS

Our [2005-2011 Toyota Tacoma PRO-Series](#), [LUXX-Series](#) and [NOVA-Series](#) headlights come with 3 LED strip on the headlights by default, customers can choose to enable or disable these 3 LED strips based on their preference, and here is the step-by-step instruction.

05-11 Toyota Tacoma headlights with 3 LED strips

Instruction:

For people who want to keep the 3 strips, nothing need to be done. For people that don't want the 3 strips, please follow the steps below:

1. Unscrew the 4 Philip screws on the bottom of the headlight
2. With the circuit board expose, unplug the 2 pin connector (red and black wires) and leave it unplug
3. Reinstall the circuit board back onto the headlight by installing the 4 Philip screws
4. Repeat the steps for the other side

Unscrew the 4 Philip screws on the bottom of the headlight

Unplug the 2 pin connector (red and black wires) and leave it unplugged
