

## **(Box Shelf) INSTALLATION INSTRUCTIONS**

### **Please read before beginning**

- *Stainless steel hardware may bind together when tightening—It is recommended that you apply an anti-seize assembly lubricant to the threads of each bolt before assembly*
- *This installation requires two people*

### **Required tools**

- Standard wrench set
- Leveling tool
- Drill with 1/4" bit

### **Included hardware**

### **Quantity**

- |  |   |
|--|---|
| • Mounting hardware                      |   |
| ○ 70008- 1/4-20 Nylock Nuts SS           | 2 |
| ○ 70060- 1/4-20 x 1" Button Head Bolt SS | 2 |
| ○ 70009 – 1/4" ID Stainless steel washer | 4 |

### **Installation Instructions**

1. Place the bolt on shelf inside the box to the desired location.
2. Making sure the shelf is level, drill through the box, the lip of the shelf, and the shelf support rail (silver color)
3. Using the supplied hardware, bolt the shelf (with shelf support rail) into place.
4. If you want to make the shelf removable then simply mount the silver rails only and set the box shelf on top of them.
5. It may be easier to cut some 1x4's to hold the rails/shelf in the desired location before drilling.
