

## **Refueling Tank Installation Instructions**

Required Hardware: 3/8 x 1 ½-16 bolt = 1 per mounting tab

3/8-16 nut = 1 per mounting tab
3/8 flat washer = 2 per mounting tab
3/8 lock washer = 1 per mounting tab

<u>Place the Refueling Tank in the desired location</u>. If you are installing a combo make sure the lid clears the bed when the toolbox lid is in the open position. Mark a location to drill a 3/8" hole in each of the mounting tabs. Before drilling check to make sure you will not drill into hoses, brake lines, wiring, etc. Drill holes thru mounting tabs a nd truck bed and fit with 3/8"x1 ½" bolts, flat washer on each side, lock washer and nut. Tighten securely.
