

AME Intl. Tuffbar

72080 Tuffbar

Stop Expensive Rim Damage

With today's high style and expensive rims why risk damage during tire changes? **Tuffbar's** entire top surface is covered with tough protective polymer plates so there is **NO** contact between the metal bar and the rim.

Greater length for more leverage.

Forged steel makes **Tuffbar** stronger than standard bars. Perfect for mounting low profile tires on large wide diameter alloy rims without bending.

Easy to use. Use **Tuffbar** with existing rim clamp machines the same way as your regular bar. The replaceable polymer plates are secure, **NO BOOT** to shift position or fall into the tire. *(replacement plates sold separately)*

Made in the USA
