

# Service Parts Catalog **AP** Products

**AP** Products

**AP Products** was established in 1994 by Tom Manning Sr. The original intent was to assist one of the suppliers Tom Manning & Associates represented by offering a complimenting line of packaged screws. From there, the company has added a host of products as opportunities arose.

All of the products being offered speak to a specific need in the market place that is not being met. This particular Service Parts catalog is intended to assist RV Dealers in the process of identifying critical service parts needed to repair and maintain their customer's RVs.

We believe the health of the industry is

dependent upon a strong Dealer base that is able to fulfill every customer's expectation in a timely and profitable manner. It is our desire to make use of our resources and talents to assist in that process.

Our entire team believes the best means for doing this is for service parts to be stocked in the field by Wholesale Distributors to make them readily available to the dealer when needed.

All of these parts are available from your preferred distributor. If you need additional assistance, we would be pleased to assist.
