## Installation

1. Identify the grille & hardware with parts list.

2. Remove 6 clips along the top of the factory grille.

3. Lift the plastic flap and move it out the way.

4. Remove 11 bolts (3 on each side and 3 in the center).

5. Unclip the hose that is on the driver side.

6. Remove a clip on each side of the factory grille shell.

7. Remove the top plate (lift the grill upwards to remove the plate).

8. There will be a clip on the side behind the factory grille, unclip it.

9.Unclip clips from around the factory grill.(push grille forward to unclip carefully)

The instruction here is for your reference only. You may need to bend the billet grille bars or tabs a little bit to adjust to fit. We strongly recommend the professional installer for best result.

Please use masking tape and tape the OEM grille shell along the edge to protect your vehicle during installation.

We are not responsible for any damage caused by the installation. Thank you for choosing our product!

19. Re-install the factory bolts on

the top plate.
