	2	Washers	12		4	K-Lock Nuts	12	6-32

Install Notes: Overlay Replacement Drill Cut

Step	Description	illustration
1	Identify the grille & hardware with parts list.	
2	Take one the billet grilles and insert it into the grille shell opening. There are 6 billet grilles, 1 for each opening in the grille shell, make sure to use the correct billet grille in the correct grille shell opening.	
3	Once you insert the billet grille into the grille shell opening you need to use a 2" machine screw, washer and 6-32 k-lock nut to secure the billet grille to the grille shell.	
4	From the front of the grille put a 2" machine screw through the brackets that are welded to the back of the billet grille. There are 2 brackets on each billet grille. From the back of the grille put a washer and 6-32 k-lock nut on each of the machine screws. Tighten the lock nuts with a 8mm socket and phillips screwdriver. Repeat this process to the 5 remaining billet grilles.	
5	Make sure the billet grille is centered and tighten the fasteners, but do not over-tighten.	
6	Reinstall the black plastic cover which was removed in step 2.	
7	Installation completed!!!	

The instruction here is for your reference only. You may need to bend the grille a little bit to adjust to fit. We strongly recommend the professional installer for best result. We are not responsible for any damage caused by the installation. Thank you for choosing our product!
