| 1          | Identify the grille & hardware with parts list.  |                       |             |                            |                 |                             |           |                                 |       |   |           |     |   |             |  |
| 2          | You may need to remove the black plastic cover<br>(at the bottom of OEM front bumper) from vehicle.<br>This will allow access to the rear of the grille shell. |                       |             |                            |                 |                             |           |                                 |       |   |           |     |   |             |  |
| 3          |  | cure the<br>he grille | he thre     | eaded hole                 | rear            | N/A                         |           |                                 |       |   |           |     |   |             |  |
| 4          | grill  |                       |             | opening<br>studs are       |                 | N/A                         |           |                                 |       |   |           |     |   |             |  |
| 5          |  |                       |             | tabs and l<br>grille shell | from            | 7-Flat Tabs and 7-Lock Nuts |           |                                 |       |   |           |     |   |             |  |
| 6          | Make sure the grille is centered and tighten the fasteners.  |                       |             |                            |                 |                             |           | N/A                             |       |   |           |     |   |             |  |
| 7          | Reinstall the black plastic cover which was removed in step 1.   |                       |             |                            |                 |                             |           | N/A                             |       |   |           |     |   |             |  |
| 8          | Installation completed!!!  |                       |             |                            |                 |                             |           |                                 |       |   |           |     |   |             |  |

The instruction here is for your reference only. You may need to bend the billet grille bars or tabs a little bit to adjust to fit. We strongly recommend the professional installer for best result. Please use masking tape and tape the OEM grille shell along the edge to protect your vehicle during installation.

We are not responsible for any damage caused by the installation. Thank you for choosing our product!
