Install Notes: Overlay <input checked="" type="checkbox"/> Replacement <input type="checkbox"/> Drill <input type="checkbox"/> Cut <input type="checkbox"/>								
Step	Description				illustration			
1	Identify the grille & hardware with parts list.							
2	Remove the trim panel at the bottom of the front bumper, so than the hand can reach to the rear of low bumper opening. And remove the license plate.							
3	Place screws through the welded aluminum tabs on the grille. Hold the billet grille up to the opening of the factory shell. Secure the grille with flat tab and U-Clip Nut from the back of OEM grille shell.							
4	Make sure the billet grille is centered and tighten the fasteners. But do not over-tighten.							
5	Reinstall the trim panel and license plate which was removed in step 2.							
6	Installation completed!!!							

The instruction here is for your reference only. You may need to bend the billet grille bars or tabs a little bit to adjust to fit. We strongly recommend the professional installer for best result.
 Please use masking tape and tape the OEM grille shell along the edge to protect your vehicle during installation.
 We are not responsible for any damage caused by the installation. Thank you for choosing our product!
