Step	Description	illustration
1	Identify the grille & hardware with parts list.	
2	Remove the top grille to install the bumper inserts. Here is how you remove the factory grille. Remove the four plastic fasteners along the top using a Phillips screwdriver. There are two black plastic retaining fasteners on each end of the grille.	
3	Use a slotted screwdriver to twist the fasteners; Pull the grille forwards and release the mold clips along the bottom of the grille. Push the grille from behind to remove.	
4	Slide the U-nuts onto the brackets. Center one of the billet insert into the opening. Insert two of the screws into the tabs welded to the rear of the billet insert. From behind the mesh. Install a bracket onto the screws.	
5	Tighten the hardware until the billet is held firmly in place. Repeat this process on the other billet. Re-install the factory grille onto the vehicle.	
6	Installation completed!!!	

The instruction here is for your reference only. You may need to bend the billet grille bars or tabs a little bit to adjust to fit. We strongly recommend the professional installer for best result.  
 Please use masking tape and tape the OEM grille shell along the edge to protect your vehicle during installation.  
 We are not responsible for any damage caused by the installation. Thank you for choosing our product!
