Step	Description	illustration
1	Identify the grille & hardware with parts list.	N/A
2	Remove the grille shell from the vehicle.	N/A
3	Center the billet into the opening of the shell. Mark the portion of the holes. Before the billet grille insert you should drill a pilot hole or use the screw through the plastic at each mark.	N/A
4	Now re-install the billet grille, make sure the billet grille is center of the opening. Place the screws through the hole of tabs and fasten with clips from the rear, it use as a flat nut. Tighten all the hardware, but do not over-tight.	N/A
5	Be sure the billet grille is centered, re-install the grille shell.	N/A
6	Installation completed!!!	N/A

The instruction here is for your reference only. You may need to bend the billet grille bars or tabs a little bit to adjust to fit. We strongly recommend the professional installer for best result. Please use masking tape and tape the OEM grille shell along the edge to protect your vehicle during installation. We are not responsible for any damage caused by the installation. Thank you for choosing our product!
