

OVERVIEW

Dress-up the engine bay with carbon fiber, molded to precise dimensions that only pre-preg. materials can achieve. These parts are exotic-looking, race-inspired, and are unmatched in quality.

FEATURES

- **Pre-preg. Carbon Fiber Manufacturing Process**
Engine Covers are vacuum-bagged and cured in the autoclave at high temperatures, ensuring quality, durability, and extremely-high strength-to-weight ratios.
- **Fade-Resistant Clear Coat**
Engine Covers are finished with UV-stable, production clear coat paint, then individually hand-polished to a brilliant shine.
- **Easy Installation**
Engine Covers are designed to factory specifications for easy installation and clean fit and finish.
