

OVERVIEW

APR Performance Rear Diffusers integrate with the rear bumper area to reduce overall lift and drag. Formed in the autoclave at high temperatures, APR Performance Rear Diffusers are made from pre-preg carbon fiber materials to be strong and light weight.

DOWNFORCE BALANCE

FRONT

CENTER

REAR

The Downforce Balance graph (shown at the left) illustrates which areas of the vehicle this product affects.

There are three (3) areas: Front, Center, and Rear. The size of the red bar represents how much this product affects each particular area.

BENEFITS

- ✓ Reduce overall lift
- ✓ Cut down on drag-inducing turbulence
- ✓ Enhance high-speed stability

SPECIFICATIONS

Pattern

2x2 twill weave

Material

Pre-preg carbon fiber, 3K (FRP also available)

Coating

UV-stable clear coat

Mounting

Pre-drilled mounting holes

Hardware

Stainless-steel machine screws, washers, and nuts

FEATURES

Known for weight savings and durability, APR Performance

Rear Diffusers are formed in the autoclave at high temperatures using pre-preg manufacturing processes.

APR Performance Rear Diffusers are molded to fit factory rear bumpers and underbody areas.

Mounting holes, and all necessary hardware are included with every APR Performance Rear Diffuser.
