

RM8825MM2T

Arkon Replacement Upgrade or Additional Metal Car or Truck Seat Rail or Floor Mounting Pedestal Retail Black

DESCRIPTION:

Arkon's RM8825MM2T car or truck seat rail or floor mounting pedestal can be used as a replacement, upgrade, or as an addition to an existing mount pedestal. It is compatible with Arkon's Dual-T universal smartphone and tablet holders (sold separately), including the Slim-Grip Ultra Universal Smartphone and Midsize Tablet Holder (SM060-2), Slim-Grip Universal Tablet Holder (TAB001), Universal Tablet Push Button Holder (TAB003), and Mega Grip Universal Smartphone Holder (SM040-2). This package is not a complete mount solution and includes only the Metal Seat Rail or Floor Mounting Pedestal with 25mm (1 inch) ball-compatible Metal Robust Mount Shaft and 18-inch Flexible Gooseneck. (Holders sold separately.) The car seat rail or floor mount is ideal for service vehicles, trucks, or those who need easy access to their devices but prefer mounting them somewhere other than the windshield or dashboard. Use a socket wrench to install the mount to the car's seat rail. Loosen the passenger seat track bolt, insert the included seat track bolt bracket, and then retighten the bolt. Bend the 18" gooseneck and adjust both of the pedestal's 25mm adjustment points for 360-degree rotation of the device. Optional floor brackets are included for screwing the mount directly into the floor of the vehicle. (Warning: Drilling into the vehicle's floor may damage the vehicle. Use caution and consult a mobile install professional to avoid drilling into any sensitive vehicle components.) A metal conduit is also included for bracing the mount's gooseneck against the car's console or other area to minimize vibration.

FEATURES:

- Strong yet flexible aluminum mount recommended for service vehicles and trucks
- 18 inch gooseneck and double adjustment points provide ideal positioning of device
- Compatible with Arkon's Dual T smartphone and tablet holders
- 2 year limited warranty
