

HD1VESA20

Arkon Heavy Duty Car Seat Rail Mount with 22 inch Adjustable Arm – VESA 75 / VESA 100 Compatible

DESCRIPTION:

The HD1VESA20 heavy-duty car seat rail mounting pedestal is compatible with devices having a VESA 75 or VESA 100 mounting pattern (sold separately). The car seat rail mount is made of strong aluminum, and is ideal for those who need easy access to their device but prefer mounting it somewhere other than the windshield or dashboard. In addition to passenger cars and trucks, this pedestal is recommended for fleets and service vehicles. Multiple brackets are included for various seat rail configurations. Use a socket wrench to install the mount to the car's seat rail. Loosen the passenger seat track bolt, insert the included seat track bolt bracket, and then retighten the bolt. Bend the 22" adjustable arm and rotate the swivel ball adapter head for 360-degree rotation for exact positioning of the VESA 75 or VESA 100 compatible device.

FEATURES:

- Compatible with devices and holders having a VESA 75 / VESA 100 mounting pattern
- Recommended for fleets and service vehicles
- Adjustable arm and swivel ball help position device
- Easy to install with socket wrench
- 2 year limited warranty
