

## RM8825MM2T

Arkon Replacement Upgrade or Additional Metal Car or Truck Seat Rail or Floor Mounting Pedestal Retail Black

### DESCRIPTION:

Arkon's RM8825MM2T car or truck seat rail or floor mounting pedestal can be used as a replacement, upgrade, or as an addition to an existing pedestal. It is compatible with Arkon's Dual-T universal smartphone and tablet holders (sold separately), including the Slim-Grip Ultra Universal Smartphone and Midsize Tablet Holder (Model SM060-2), Slim-Grip Universal Tablet Holder (Model TAB001), Universal Tablet Push-Button Holder (Model TAB003), and Mega Grip Universal Smartphone Holder (Model SM040-2). This package is not a complete mount solution and includes only the Metal 18" Seat Rail or Floor Mounting Pedestal with 25mm (1 inch) ball-compatible Robust Mount Shaft and Dual-T Head. (Holders sold separately.) The car seat rail or floor mount is ideal for service vehicles, trucks, or those who need easy access to their devices but prefer mounting them somewhere other than the windshield or dashboard. Use a socket wrench to install the mount to the car's seat rail. Loosen the passenger seat track bolt, insert the included seat track bolt bracket, and then retighten the bolt. Bend the 18" gooseneck and adjust both of the pedestal's 25mm adjustment points for 360-degree rotation of the device. Optional floor brackets are included for screwing the mount directly into the floor of the vehicle. (Warning: Drilling into the vehicle's floor may damage the vehicle. Use caution and consult a mobile install professional to avoid drilling into any sensitive vehicle components.)

### FEATURES:

- Strong yet flexible aluminum mount recommended for service vehicles and trucks
- 18 inch gooseneck and double adjustment points provide ideal positioning of device
- Compatible with Arkon's Dual-T smartphone and tablet holders
- 2 year limited warranty
