

RMSAMPS2T

Heavy Duty 4 Hole AMPS Car or Wall Mounting Pedestal with 4 Inch Arm - Dual T Pattern for Smartphone and Tablet Holders

DESCRIPTION:

The RMSAMPS2T small suction mounting pedestal is part of Arkon's Robust Mount Series. It can replace or upgrade an existing pedestal and mounts to walls or other solid flat surfaces with screws using the 4-Hole AMPS mounting pattern. This mount includes only the Heavy-Duty 4-Hole AMPS Small Mounting Pedestal with a Dual-T Head. This 4 inch mounting pedestal is ideal for tight areas where a smaller pedestal is beneficial. The pedestal is compatible with Arkon's universal smartphone and tablet holders (sold separately), including the Slim-Grip Ultra Universal Smartphone and Midsize Tablet Holder (SM060-2), Slim-Grip Universal Smartphone Holder (SM050-2), Slim-Grip Universal Tablet Holder (TAB001), Mega Grip Universal Smartphone Holder (SM040-2), Mobile Grip Universal Smartphone Holder (MG001), and Mini Grip Smartphone Holder (SM015-2SLM). The pedestal is also compatible with other Dual-T pattern holders. Holders sold separately. This tough, low-vibration pedestal arm measures 2.75 inches high and is made of a combination of plastic and glass fiber. The arm of the pedestal swivels on both the top and the bottom, providing 360-degree rotation and the ultimate flexibility in positioning the smartphone or tablet at any angle. The AMPS pattern consists of four holes located in a rectangular pattern spaced at 30.17mm x 38.05mm (measured as the center-to-center distance between holes). The mount can also be screwed directly into the floor of your vehicle. (Warning: Drilling into the vehicle's floor may damage the vehicle. Use caution and consult a mobile install professional to avoid drilling into any sensitive vehicle components.)

FEATURES:

- Features a 4 inch pedestal arm
- Mount is compatible with Arkon Dual T smartphone and tablet holders (sold separately)
- Low vibration 4 Hole AMPS mounting pedestal attaches with screws to walls and other solid flat surfaces
- 2 year limited warranty
