

RV001WR

Arkon RoadVise Phone Holder for iPhone 7 6S 6 Plus iPhone 7 6S 6 5S Galaxy S7 S6 Note 7 5
Retail Black

DESCRIPTION:

Arkon's RV001WR RoadVise phone holder fits on all Arkon 17mm ball mounting pedestals (not included, sold separately) to create a phone mount solution that's perfect for your needs. The phone holder's solid construction provides strength and reliability by securely gripping smartphones with cases weighing up to 2 pounds and measuring up to 4" wide, including the Apple iPhone 7 and 7 Plus, iPhone 6S Plus and 6 Plus, iPhone 6S, 6, 5S, and SE, Samsung Galaxy S7, S6, and S5, Galaxy Note 7, Note 5, and Note 4, Google Nexus 6 and Nexus 5, HTC One M9, M8 and One Max, Nokia Lumia 1020 and 1520, LG G5, G4, and G3, Motorola Moto G and Moto X. The RoadVise Holder is the perfect upgrade for your current phone holder. It features a spring-loaded mechanism that expands to hold smartphones up to 4" wide. Arkon recommends using the RoadVise Holder with smartphones with skins and ruggedized cases. The RoadVise is designed to use two hands to install and remove your device. This is to make sure your device cannot be accidentally removed while adjusting viewing angle. The low-profile phone holder keeps rear smartphone cameras free for spontaneous pictures or videos. The holder is easy to install. Just snap it onto the 17mm ball of the pedestal and use the included tightening ring to secure. For complete mount solutions featuring the RoadVise phone holder, choose from Arkon's popular sticky suction windshield or dash mount (RV179), bike or motorcycle handlebar strap mount (RV134), or car seat rail or floor mount (RV188).
