

SM614

Arkon Windshield Dash Phone Car Mount for iPhone 7 6S 6 Plus 7 6S 6 Galaxy S7 S6 Note 5 iPad mini Retail Black

DESCRIPTION:

The SM614 windshield and dash car mount holds large smartphones up to 6.75" tall, including Apple iPhone 7 and 7 Plus, iPhone 6S and 6 Plus, iPhone 6S, 6, 5, 5S, and SE, Samsung Galaxy Note Edge, Note 5, Note 4, and Note 3, Galaxy S7 edge, S7, S6 edge+, S6, S5, and S4, LG G5, G4, and G3, Nexus 6 and Nexus 5, HTC One M9, One M8, and One Max, Nokia Lumia 1520 and 1020, and Motorola Moto G and Moto X. It also holds midsize (7" or 8" screen size) tablets, including iPad mini, Galaxy Tab S 8.4, Galaxy Note 8.0, Galaxy Tab 3 7.0 and 8.0, Galaxy Tab Pro 8.4, Kindle Fire HD, and Google Nexus 7. This mount package includes Arkon's Slim-Grip Ultra spring-loaded universal holder, the Travelmount deluxe mini windshield suction car mount with one-touch lever, and a 3M adhesive mounting disk (for optional dash mounting). The smartphone or tablet is held securely in place with the patented spring-loaded holder, but can be inserted or removed from the mount with one hand. The top and bottom adjustable-leg design of the Slim-Grip Ultra helps keep any side buttons and ports unobstructed, making it ideal for use with the side accessible buttons on the Samsung Galaxy S7 edge and Galaxy Note Edge. Included with the holder are 8 support legs (4 short and 4 longer versions) that can be customized based on the size of your device. The recommended configuration for most smartphones and midsize tablets is to have 2 short legs on the top of the holder and 2 of the longer legs on the bottom of the holder. For devices with height larger than 5.25", use the 4 long support legs for best performance. This mount fits all non-flip smartphones, even those with ruggedized or large protective cases or skins. The arm of the suction mount adjusts vertically and provides 360° rotation, giving you the ultimate flexibility in viewing the device from any angle. The Travelmount suction car mount with Slim-Grip Ultra holder can also be used as a dash mount. It's a 2-in-1 car mounting solution.

FEATURES:
