Arkon Windshield Dash Phone Car Mount for iPhone X 8 7 6S Plus 8 7 6S Galaxy Note Edge 8 S8 S7 Retail Black

#### DESCRIPTION:

The SM679 sticky suction deluxe car mount fits smartphones up to 8" screen size, including Apple iPhone X, iPhone 8 and 8 Plus, iPhone 7 and 7 Plus, iPhone 6S and 6S Plus, iPhone 6 and 6 Plus, Samsung Galaxy Note Edge, Note 8, Note 5, and Note 4, Samsung Galaxy S8, S7 edge, S7, S6 edge+, and S6 edge, HTC One M9, One M8, and One Max, Nokia Lumia 1520 and 1020, LG G6, G5, and G4, Nexus 6 and Nexus 5, Motorola Moto G and Moto X. It also fits midsize tablets, including the Galaxy Tab S 8.4, Galaxy Tab Pro 8.4, Galaxy Tab 3 7.0 and 8.0, Galaxy Note 8.0, iPad mini, and Nexus 7. This mount includes Arkon's patented Slim-Grip Ultra universal smartphone and midsize tablet holder and a sticky suction windshield or dash car mount with one-touch lever. The mount is ideal for car dashboards, windshields, and other flat or slightly textured surfaces. The sticky suction base uses a powerful combination of polyurethane gel and suction to provide a maximum surface bond. To restore the suction, just rinse the pad with a mild liquid soap and warm water then air dry. In order to prevent indentation marks on soft dashboard surfaces, Arkon recommends using the included 3M adhesive mounting disk. The phone or tablet is held securely in place with the spring-loaded holder, and can be inserted or removed from the mount with one hand. The top and bottom adjustable-leg design of the Slim-Grip Ultra helps keep any side buttons and ports unobstructed, making it ideal for use with the side accessible buttons on the Samsung Galaxy S7 edge, Galaxy S6 edge+, and Note Edge. Included with the holder are 8 support legs (4 short and 4 longer versions) that can be customized based on the size of your device. For most smartphones, the ideal mount holder configuration is to attach 2 short support legs on top and the 2 long support legs on the bottom of the holder. The arm of the suction mount adjusts vertically and provides 360° rotation, providing flexibility in viewing the device from any angle.
