This mount includes Arkon's universal locking tablet holder and 18" flexible aluminum gooseneck floor mount with 25mm (1 inch) ball-compatible Robust Mount Shaft. The Universal Locking Tablet Holder features a key lock (keys included) that keeps the tablet securely in place. The tablet holder is made of aluminum and includes multiple horizontal and vertical adjustment points along both sides, making it compatible with tablets as small as the G Pad 7.0, or as large as the Nexus 10. Use a 7mm and 10mm socket wrench to adjust the tablet holder to your tablet's size specifications. Security hardware is also included. Install the mount to the car's seat rail with a socket wrench by loosening the passenger seat track bolt, inserting the seat track bolt bracket, and retightening the seat track bolt. Bend the 18" gooseneck and adjust both of the mount's 25mm ball adjustment points for 360-degree rotation of the phone. Optional floor brackets are included for screwing the car dock directly into the floor of the vehicle. (Warning: Drilling into the vehicle's floor may damage the vehicle.
