AR PRE-RUNNER GUARD

Our AR Pre-runner allows you to run 3 possible configurations. This Pre-runner Guard will give your truck or SUV a rugged look, the center cross beam offers pre-drilled holes for auxiliary lights. Constructed from heavy duty steel tubing finished in a textured black powder coat finish, our bumper guard will give you the ultimate protection and styling on or off-road.

Details:

- Mandrel bent tubing for a smoother appearance and maximum protection
- Center cross beam offers pre-drilled holes for auxiliary lights
- Modular design with 3 possible configurations
- Textured powder coated finish for superior corrosion resistance
- Fully-welded constructed with high-quality steel
- Easy, bolt-on installation. No drilling required for most applications
- Complete hardware kit and installation instructions included

AR2 PRE-RUNNER GUARD

Armordillo® AR2 Pre-Runner Style Modular Grille Guard, This large modular system is designed to provide robust protection for the entire front end of your vehicle while emphasizing the slightly aggressive lines of your rig. Made from A36 steel, it will safeguard your front bumper, grilles, and headlights against the impact of a collision.

Details:

- Made from heavy-duty steel for maximum rigidity
- Protected against rust and corrosion with black powder coating
- Covers a larger area of the front end, 1.5" diameter tubing for added strength
- Comes with 2 Aux lighting mounting option
- Removable headlight area for easy maintenance

ARB BULL BAR

If you want front end protection for your rig but don't want to hide its great looks behind a massive grille guard, our bull bar is for you. Although bull bars don't cover the entire front end, their heavy-duty, large diameter tubes do provide robust protection for the lower grille, and center and underside of the front bumper, especially when equipped with a skid plate. Our bull bars can ward off brush, branches and rocks off-road, and provide protection from debris, wayward deer, and even minor collisions on the road.

Details:

- Sleek and angular design that blends with the body lines of your vehicle
- Pre-drilled holes for auxiliary lights
- Easy, bolt-on installation. No drilling required
- Direct fit to your light truck and SUV
- Include skid plate for better protection and style
- Multiple color finishes (Polished, Gloss Black, Matte Black, and Matte Black w/ brush skid plate)

BR1 SERIES BULL BAR

Armordillo® BR1 Bull bar, The front end of your rig is susceptible to damage in the event of even a minor collision with a deer or a tree branch. This BR1 series bull bar is designed to minimize the impact of such collisions and protect the front of your bumper and grille from damage. In addition, the bull bar features predrilled holes to install a set of auxiliary lamps, so you can add more light to your ride, while maintaining your front-end protection at a high level.

Details:

- Rigid design - The mounting brackets mounts to the frame and support brackets will go to the front support
- Easy DIY bolt-on installation comes with an installation guide for quick reference
- 3-Stage powder coating finish for superior corrosion protection
- Comes with 2 pre-drilled holes for additional AUX light
- Easy bolt-on installation with no drilling required on most applications
- Direct fit to your four-wheeler

AR

DROP STEP

Our AR style drop step bars is precision designed for the specific vehicle, to guarantee a perfect fit.

They're manufactured in powder coated stainless steel finish for all cab lengths and wheel-to-wheel lengths. The steps are designed to meet today's stylist trend as well as ensure quality and consistent shape. And each tube comes equipped with a custom crafted step pad areas to provide the best traction.

Details:

- Oversized step bars fit securely to the rocker panels
- Reinforced mounting brackets are engineered for superior strength
- OE-inspired bolt-on design makes for simple installation
- Custom crafted step pads prevents against slip and adds traction
- Weather-resistant black powder-coat finish
- Direct mount and easy DIY installation

RS SERIES RUNNING BOARD

FRONT GRILLES

Armordillo® The grille is your vehicle's "face", and like human faces, grilles can be very distinct and recognizable. Some classic grilles can make cars instantly identifiable, while the right custom grille can disguise a vehicle, giving it a whole new identity. Armordillo knows how important grilles are, which is why Armordillo carry reproduction grilles for classic and muscle cars, stock replacement grilles for late model cars and trucks, and an extensive selection of custom grilles.
