The World Leader In Fastener Technology

New Product Release

BMW Mini 1.6L W11/B16 Pressure Plate Bolt Kit

available for immediate delivery

Part No. *101-2202*

ARP - The World Leader in Fastener Technology has just released a new pressure plate bolt kit for BMW Mini 1.6L W11/B16 applications.

Part No. 101-2202 - includes a set of six premium grade chrome moly pressure plate bolts that are nominally rated at 180,000 psi tensile strength, which is substantially stronger than grade 8 hardware.

All ARP driveline fastener kits are cold forged to ensure molecular integrity, heat treated prior to thread rolling and machining and designed to exceed the OEM fasteners in both strength and durability. Optimum design, enhanced reliability and increased strength are the main attributes of ARP driveline fastener kits.

ARP products are available worldwide through local distributors
