Fuel & Transmission Line Disconnect Set

- Separate fittings on fuel lines, fuel filters & fuel tank return lines.
- Separates automatic transmission cooling lines on 1986 and newer Ford: Taurus, Escort, Focus, Mustangs and Mercury vehicles with AXOD, AOD, and ATX transmissions as well as 1/2" oil lines on 2005 and newer Ford cars and trucks.
- Fuel line disconnect tool allows damage free fuel line quick connect coupler release.
- Fits any 5/16" or 3/8" fuel line found on GM, Ford or Chrysler cars.
- Ford fuel line coupling tool provides easy, damage-free fuel line separation.
- Works on 1990 and newer Ford Ranger and Explorers with 4.0L, 6 cylinder engines.
- Disconnect tool allows quick separation of quick connectors found on radiators, transmissions and power steering lines.
- Releases the fingers on transmission-to-radiator oil cooler line easily without damage to the hose or connector
- Quick disconnect coupler tool slides down the line and into the connector; separating the clip apart without damaging the quick connect seals allowing removal of clip.
- Works on late model Ford and GM vehicles.

Oil Cooler Line Remover

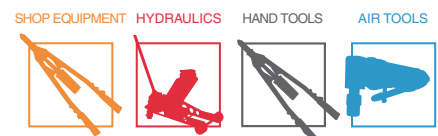

- Anodized aluminum
- This unit is used to disconnect transmission oil cooler lines.
- Works on 2003 and 2004 Ford Explorer (V8), 2004 Ford F150, and 2004 Cadillac CS", as well as 2005 and newer Ford vehicles with 1/2" lines".
- Unique design to clear the flare and disconnect the new style clips.

Air Conditioning & Fuel Line Disconnect Tool Set

- Allows easy disconnection of air conditioning lines & quick connect fuel lines.
- Six distinctive tools allow the disconnecting of spring lock couplings air conditioning lines found on Ford and Chrysler.
- Allows usage on fuel line quick connect couplings found on GM, Ford, and Chrysler.
- Ford Disconnect Tools allows usage on push lock connectors found on radiators and transmission lines.
