130° Lambo Door Hinges

ALL DOORS UP!

AutoLoc's™ NEW Upright Door System will make your car or truck stand out in a crowd. Do not settle for kits with inadequate door movement! AutoLoc's advanced universal design ensures proper fit and a long life of smooth operation. To ensure maximum quality each kit is CAD/CAM designed. Available in universal and direct-bolt in kits. Call for more information on vehicle specific systems.

Featured on

Anti-Wobble Design:

AutoLoc's™ Upright Door Systems feature industry exclusive anti-wobble engineering technology, guaranteeing that your doors will not wobble or sway as they are lifted. Car doors are heavy, and other hinge kits have engineering imperfections that cause them to wobble from the weight of the door as they are raised. AutoLoc™ Upright Door Hinges are CAD engineered and manufactured using the highest quality materials to ensure a lifetime of smooth, easy operation.

Fully Adjustable Hinge:

With 5 fully adjustable points, you have the ability to fine tune your hinges' operation. This results in smoother shutting doors, easier movement and a factory-fitting door. The central hinge is also self contained to prevent damage from the elements of nature. Patent Pending.

Remote Operation:

AutoLoc's™ Upright Door System is available with remote operation. This gives you the ability to control your doors from up to 300 feet away. This added convenience works great with the motorized Lambo Hinge kit. Choose from 3 to 18 functions to operate your vehicle's doors, plus any other power accessory with the left over channels!

Heavy-Duty Metal Tipped Gas Struts:

Don't settle for low quality kits that include cheap plastic gas struts. AutoLoc's™ Upright Door Systems include 2 - 200+lbs gas charged struts with metal ends per door. This ensures a lifetime of smooth operation while looking great.

Upright Door Loom

The Upright Door Loom protects your wires through your door's entire range of motion. Made of braided stainless steel. 18 inches long.

AUTDLOOMBL18 #127043

UDS Mounting Plate

This Mounting Plate welds into the cowl area, enabling the UDS hinge to mount flush with the cowl.

AUTDSPLATE #15904

"Great product, it works flawlessly...it even out-performed my friend's more expensive upright kit and since mine is welded, it is a lot stiffer than his expensive bolt-on kit. Thanks AutoLoc."

Seijas H. Kingsville, TX

Suicide Hinge Series

ZeroFlex™ Suicide Hinges

Autoloc's revolutionary Suicide Hinge System offers rugged, heavy duty all steel construction with Zero-Flex Hinges and 3/8" hinge pins. Our unique notch design and adjustable mounting holes ensure proper door alignment. Self-lubricating bushings provide years of trouble free operation. Sold in pairs (for 2 doors) with recessed door pockets, mounting hardware, and extra bracing. Backed by a Limited Lifetime Warranty.

Electrical Controllers

Light Sequencer

Indicate turns with style! The light sequencer controller flashes your turn signal bulbs in succession, instead of all at the same time. This not only adds a truly unique look to your ride, but it enhances your nighttime visibility as well. Sequenced turn signal bulbs give the 'chasing' effect.

AUTEC1 #15951

Dome Light Delay Controller

Sick of leaving your dome light on? The dome light controller automatically turns your dome light off 30 seconds after you leave your car, preventing dead batteries and increasing the visual security of your vehicle.

AUTEC2 #15952

Retained Accessory Controller

Not all work is done when the key is in the ignition! Autoloc's Retained Accessory Controller allows you to operate any item wired up to your ignition circuit when the key is not in the ignition for a limited time. The unit will keep power on the ignition circuit for up to 30 seconds so that you can adjust your windows, stereo, power seats, and more without the key in the ignition.

AUTEC3 #54313

Self-Canceling Controller

Be driver friendly! Autoloc's Self-Canceling Turn Signal Controller allows you to limit the pulse length of your turn signals with ease! Ideal for push button turn signals, or peace of mind.

AUTEC4 #15954

Photocell Headlight Controller

Safety First! AutoLoc™ Photocell Headlight Controller will automatically turn on your headlights when the light level outside reaches a programmable darkness level. The same unit will also work for interior accent lighting. Works great with AutoLoc Interior AmberAccents™ and headlights.

AUTEC5 #15955

Brake Light Turn Signal Converter Module

For cars with only a brake light circuit, AutoLoc® now offers the brake light turn signal converter module. This handy unit allows you to keep your simple brake light setup, but adds independently flashing right and left brake lights for full indicator legality on the road.

AUTEC7 #54315

Engine Start Activation Control Module

AutoLoc ECO remote engine start controller allows you to activate your car with a push of a button. Programmable crank time and accessory power make it ideal for push button start applications. Press the button quickly to turn on your accessory and ignition, press and hold to start car. Simply press the button again to turn off the engine when running. Single button operation!

AUTECO #54309

1-Touch Headlight Controller

AutoLoc's new 1-touch headlight controller allows you to control your headlight with a push of a button! The built in headlight beam indicator will change colors to indicate low beam and high beam operation. The advanced microprocessor controller makes activation of your headlights a snap! Detailed instructions and plug in harness included.

AUTEC6 #09313

Flame Thrower Kits

FOR OFF ROAD USE ONLY.

20 Feet of Fire

This sizzling product can make up to 20 feet of flames shoot from your exhaust tips with a touch of a button! The kit's main control box can control 2 spark plugs for optimal performance on dual-exhaust vehicles. Easy installation and detailed instructions ensure compatibility with most exhaust systems. The kit includes a control box, activation button, wire loom, and wiring diagram. The kit does not include the 2 coils and 2 spark plugs needed for complete installation. These kits are designed for carbureted vehicles, but can be used on fuel injected vehicles with additional modifications and parts.

- **Dual or Single Exhaust**
- **Shoots Up To 20' of Flames**
- **Push Button Operation**
- **Simple Installation**
- **Works on Most Exhausts**

1 Press Activation Button

2 Shoots Up To 20 Feet of Flames!

Ultra Touch™ Invisible Switch Systems

UltraTouch™ Invisible Switch

The UltraTouch™ Invisible Switch system allows you to control any item with the utmost secrecy. The UltraTouch™ advanced sensor system allows you to hide the sensor behind or underneath any non-metallic items. For activation, simply touch the backside of the material to which the sensor is mounted. Works on glass, carpet, fiberglass, wood, non-metallic films, and more.

GO INVISIBLE!

All-In-One Receiver & Sensor Unit – AUTULTRAT1 #12418

UltraTouch™ EZ Start

Push Button Engine Start System

The UltraTouch™ EZ Start system allows you to start and stop your vehicle with the utmost convenience - even easier than a traditional push button start system. The Ultra Touch engine start system uses your factory parts to activate your engine. No drilling or cutting is required resulting in a factory look. The UltraTouch™ advanced sensor system allows you to hide the sensor behind or underneath any non-metallic factory part. For activation, simply touch the front side of the material to which the sensor is mounted. Available with handsfree door locks and RFID security.

Shaved Door Kits

Complete Shaved Door Kits

AutoLoc's Shaved Door Handle Kits offer the strongest solenoids on the market. Guaranteed to open the toughest of doors! Don't be fooled by inferior kits that claim their solenoids are strong enough to pop your doors open. Insist on the best! These kits are great on all latching systems including stubborn, older OEM latches. Available with 35 lbs solenoids or our NEW Adjustable, Heavy Duty Solenoid. The easy to use adjustable tip ranges from 50-105 lbs of pulling power! For added functionality, we also offer these kits with 18 function remotes, or a full featured alarm system, or both! All kits are backed by a Limited Lifetime Warranty. Use the AUTSVPRO Specifications Chart and the Solenoid Performance Chart on the next page to choose your perfect kit!

EVERYTHING YOU NEED

AutoLÖc Versus The Competition

WARNING!

DON'T SETTLE FOR ANYTHING LESS THAN THE BEST!

All AutoLÖc™ Heavy Duty Solenoids feature our Pro-Rated Return Spring. Our competitors' solenoids use rubber boots instead of return springs. These rubber boots become stretched, torn or deteriorate over time causing solenoid failure by allowing the piston to pop out.

Rubber boots can also encourage water condensation, which ruins a solenoid.

Bolt-In Shaved Door Kits

New!

Quick, Easy Shave

With AutoLoc's Bolt-In Shaved Door Kits, a handle shaving is the easiest it's ever been or will ever be. Kits come complete with latch-opening actuators and custom brackets for direct bolt-in convenience, keyless systems, harnesses, relays and multi-function key fobs. Comes complete with detailed instructions and backed by a Limited Lifetime Warranty.

- **Bolt-In Convenience**
- **Heavy-Duty Actuators**
- **18 Gauge Steel Bracketry**
- **Up to 8 Function Remotes**
- **Includes Relays & Harnesses**

Chevy S-10 Bolt-in Kit

Page 22

1 Find your application in one of four groups:

A

- 82-93 S10, Blazer, S-15, Jimmy. (Does not fit Blazer/Jimmy rear doors-use universal kit)
- 88-98 Chevy/GMC Full-Size Trucks

Power Door Lock Kits

New!

Heavy Duty Power Door Lock Kits

Power Up! Now you can transform your manual door locks into automatic power door locks. Each kit is designed and manufactured with the highest quality components available. AutoLoc's™ central power locking systems are unique because they allow you to operate your new power door locks with your vehicle's original door lock plungers, thus eliminating the need to mount aftermarket switches on your doors.

Kits are available for all import and domestic passenger or utility vehicles (trucks & SUVs). The instructions take you through the installation process step-by-step. If that isn't easy enough, AutoLoc™ has optional installation videos available through the web and on CD-ROM. Kits are available with remote operation or an alarm for added convenience and security. Backed by a Limited Lifetime Warranty.

Key Series Key Number

AUTTRK + **30** + **5** = **AUTTRK305**

AUTTRK305, in this example, would be the ordering number for a FlipKey system that would retrofit the key to your existing alarm system in a Nissan vehicle.

Keyless Entry Systems

New!

HANDS-FREE SYSTEMS

Why wait for the future when you can have it right now?

Ultimate Security — Ultimate Simplicity

Hands Free Keyless Entry

No Hands! You can now unlock and start your car with no keys, push-button fobs or other cumbersome devices. Simply walk up to your car, and the doors unlock when you're in a predetermined range while simultaneously enabling your push button start. Walk away from your car and the doors lock and the ignition circuit is disabled for the ultimate in vehicle security. Kit also features a valet mode for flexibility.

Kit also features built-in alarm with adjustable sensitivities and siren features, and optional motor starting or trunk release. If it sounds ideal, that's because it is.

Hidden Antenna

SHAVE THAT ANTENNA! Now you can shave your factory external antenna and achieve the ultimate clean look for your vehicle. The AutoLoc™ Hidden Antenna offers crystal clear reception and peak performance. May be mounted in any position. It works just as well as a standard antenna without the unsightly antenna mast. Universal design ensures easy installation for all vehicles! Backed by a Limited Lifetime Warranty.

AUTHAB - #140875

Power Antenna

GET CRYSTAL CLEAR RECEPTION! The AutoLoc™ Power Antenna offers the ultimate reception at a very affordable price. Available with several styles of mounting bases to accommodate all mounting angles and positions. The heavy duty motor ensures optimal performance and a lifetime of trouble-free operation. Kits come complete with mounting bracket, antenna, motor, and more.

AUTPAC - #140769

Adjustable Linear Actuators

Deluxe Series Linear Actuators

You Want Extreme Power? AutoLoc™ is proud to introduce its line of industrial strength linear actuators. These are the ultimate accessory for installing power operated hoods, trunks, tonneau covers, or any other heavy-duty lifting applications. 16:1 gear ratio offers quick operation even on the most demanding lifting jobs. All of our linear actuators offer built-in limit switches to protect against over and under extension of the main gear. The heavy duty built-in clutch ensures your linear actuator will have a long life of consistent smooth operation. The light weight aluminum actuator casing protects the high-torque electric motor and the permanently sealed and lubricated heavy-duty actuator gears. Available in several sizes and load ratings. Great lifting power backed by a Limited Lifetime Warranty.

Air Genie

Air Suspension Control System

Control your ride! AutoLoc's™ Air Genie™ air bag suspension controller unit gives you complete control over your air bag suspension system. Featuring fully programmable settings and up to 8 user-defined presets, as well as built-in relay technology to control the air compressor, the Air Genie™ unit gives you total management of your air bag system. Control each individual air bag, front and back separately, or all four bags at once. Viewing and adjusting your settings is a breeze thanks to the unit's large LCD screen which features backlit illumination for easy operation at night. Backed by a limited lifetime warranty.

New!

Patent D503687 & 7,021,810 other patents pending

Alarm Lock down

Full protection! Air Genie™ offers full protection - pull up, drop your car to the ground and when you arm your alarm all your buttons become inoperable and the display reads 'Alarm'. Your car becomes completely theft-proof.

Up to Eight (8) Programmable Presets

Set up different ride heights and ride qualities for a wide variety of situations and terrain, all accessible on the fly with a simple push of a button. **Preset at your aligned height to prevent tire wear!** True one-touch operation!

Total AirBag Control

Harness the true power of your air bag system with the Air Genie's™ advanced airbag control system, allowing you to adjust, control, and operate each bag independently of your air bag system, or in groups.

PVT™- Programmable Valve Timing

Control your valve activation periods from a hundredth of a second up to a full second for the smoothest, most precise operation of your bags.

Remote operation available!

Power Window Accessories

Electric Window Crank Switch

AutoLöd's revolutionary electric window crank switches allow you to operate your power windows with your vehicle's original window crank handle, thus eliminating the need to mount aftermarket switches in your door panels. To operate your electric window, simply rotate the window crank up or down 15 degrees and your power window will roll up or down. These switches will work with your factory window crank handles, giving your vehicle a traditional look. Universal design and ultra thin profile makes installation a snap.

- Available in multiple shaft styles
- Custom spline styles available
- Ideal for all vehicles
- Positive dead-lock stop for safety
- Heavy-duty design for durability
- Billet with stainless steel fasteners

**Looks Like Your Crank,
Works Like a Switch!**

Dual Window Operation Kit

Operate two windows with 1 EWS switch.

Column Floor Mount

AutoLoc™ Billet Aluminum Column Floor Mounts put a luxurious finishing touch on your steering column installation. Featuring fully adjustable settings which provide total compatibility with all steering column widths and sizes, AutoLoc™ floor mounts make mounting your steering assembly a snap!

- **Interlocking ring system fits all columns** • **Works with angled columns** • **Beautiful high-shine finish**

Firewall Column Trim

AutoLoc™ billet aluminum Firewall Column Trim is the perfect solution to dress up your unsightly firewall column hole. This attractive trim features interlocking rings that enable it to fit all columns and provide the ability to adjust for angles. Securely holds column in place and has a brilliant chrome finish.

Billet Brake & Clutch Trim

Perfect for cars with elongated pedal shafts and great for use on the firewall with accelerator cables, kickdown cables, or whatever you want!. 2-1/4" diameter with a 5/8" x 1-1/8" hole and stainless steel screws.

Universal Billet Knob

This Billet Knob is perfect for any situation involving the use of fingers to manipulate a moving surface. Easy to install and looks amazing!

Billet & Machined Items

Billet Window Cranks

Crank in style! Give your interior a custom, refined look with AutoLoc™ Billet Aluminum Window Cranks. Replace your bland OEM or replacement cranks with polished billet aluminum cranks, giving your interior an elegant look while still providing perfect functionality.
