Rear Passenger  
Side Visor

### Preparation Before Painting / Installation

- A trial fit is recommended to ensure proper positioning and fit.
- Check fit of parts before painting as we will not accept the return of modified or painted parts.

# Installation Steps

**NOTE:** Actual application may vary slightly from illustrations.

Alcohol Pad

Clean the window channel with an alcohol pad.

1

Peel back 2" of tape line from each end of top flange.

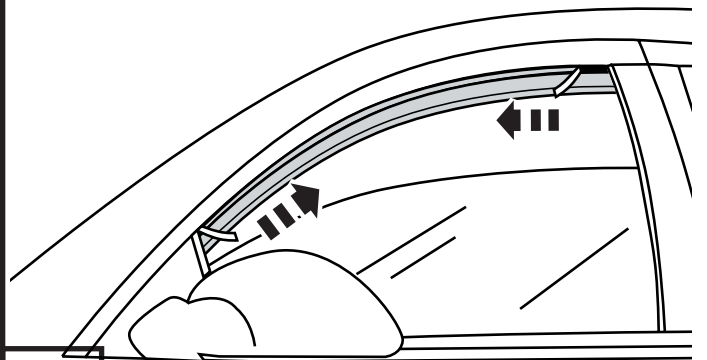

2

Insert visor into window channel, rear flange first. Rear flange inserts between the trim and the exterior surface. The front & top flange slides into the window channel.

3

Remove tape liner by pulling on the free ends. Raise window slowly and leave up for 24 hours to secure visor to window channel.

4

## 4 Piece Set

Install the rear visors using the same preparation and installation methods as the front visor. Note that the rear flange adheres to the outside of the window post, and the front flange inserts between the rubber & window frame.

5

## Care and Cleaning

- Wash only with mild soap & dry with a clean cloth.

## Congratulations!

You have purchased one of the many quality Auto Ventshade™ branded products offered by Lund International, Inc. We take the utmost pride in our products and want you to enjoy years of satisfaction from your investment. We have made every effort to ensure that your product is top quality in terms of fit, durability, finish and ease of installation.
