Preparation Before Painting / Installation

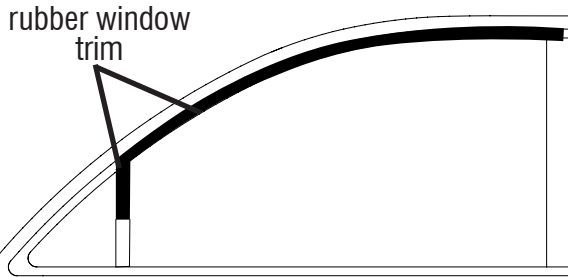

- A trial fit is recommended to ensure proper positioning and fit.
- Check fit of parts before painting as we will not accept the return of modified or painted parts.
- Wash your vehicle to remove any debris and/or dirt from installation area.
- Dry the installation area with a clean towel.

Installation Steps

NOTE: Actual application may vary slightly from illustrations.

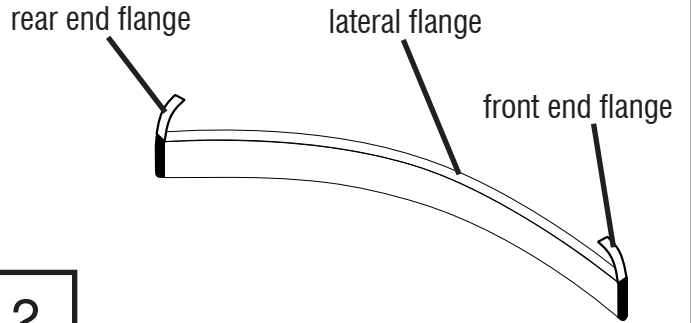

Scuff rubber trim with Scotch Brite scuff pad. Clean trim/mirror cap with alcohol pad.

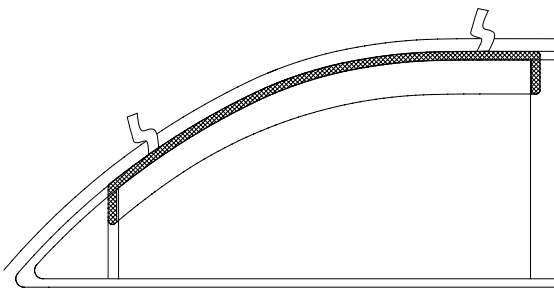

1

Peel back tape liner 2" on front and rear end flanges.

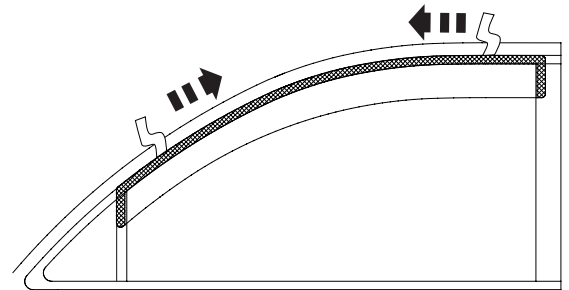

2

Align driver side vent visor with previously cleaned area and apply pressure to exposed tape

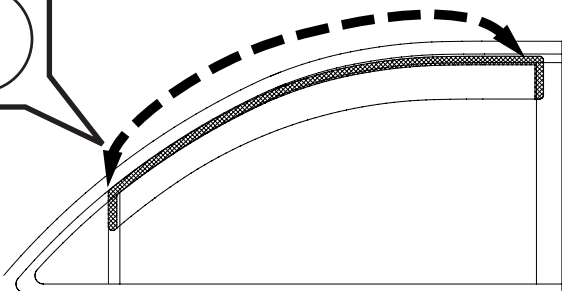

3

Remove remaining tape liner.

4

Apply pressure along length of vent visor to secure.

5

Repeat installation procedure for passenger side front vent visor.

Installation Steps

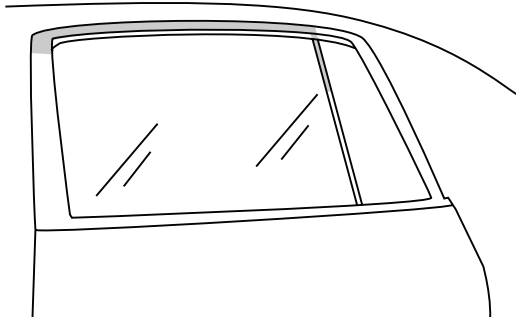

NOTE: Actual application may vary slightly from illustrations.

4 piece Set
