Side Visor

Alcohol Pad x4

Tools Required

Car Wash Supplies

Clean Towel

Preparation Before Painting / Installation

NOTE: Due to the absence of a door frame, the visors will attach to the roof of the vehicle.

- A trial fit is recommended to ensure proper positioning and fit.
- Check fit of parts before painting as we will not accept the return of modified or painted parts.
- Wash your vehicle's roof to remove any debris and/or dirt.
- Dry the door window channels with a clean towel.

Installation Steps

NOTE: Actual application may vary slightly from illustrations.

Alcohol
Pad

Clean the painted surface where the visor will mount with an alcohol pad.

Peel back 2" of tape liner from back of rear visor at each end of top flange.

Align rear visor with previously cleaned surface.

Remove remaining tape liner. Apply pressure to secure visor to vehicle.

Remove the tape from the front flange of the rear visor. The front visor will attach to the rear visor at this location.

Remove 2" (5cm) of tape from each end of the front vent visor.

Align the rear flange of the front visor with the previously exposed tape of the rear visor.

After properly positioning front visor, remove remaining tape liner. Apply pressure on all tape flanges to ensure proper adhesion.

Repeat procedure on opposite side.

Care and Cleaning

- Wash only with mild soap & dry with a clean cloth.

Congratulations!

You have purchased one of the many quality Auto Ventshade™ branded products offered by Lund International, Inc. We take the utmost pride in our products and want you to enjoy years of satisfaction from your investment. We have made every effort to ensure that your product is top quality in terms of fit, durability, finish and ease of installation.
