STEP 5

The AWE Tuning Billet Exhaust Tips are installed in the reverse way the factory tips were removed. Two (2) insert tabs on the exhaust tip assembly need to be inserted into pockets located on the topside of the exhaust tip pocket, as shown by the arrow in **Figure 5**.

Repeat these steps for the opposite exhaust tip assembly.

 The tabs need to be completely inserted before reinstall the T25 Torx bolts.

CARE

Periodic cleaning of exhaust tips is necessary to maintain proper finish, especially in areas prone to road salt and caustic deicing solutions. Use a mild soap and water solution and/or car wax to clean the finish. Avoid using metal polishes, as they can scratch the finish.
