

COLOR AND ROLL CAGE SIZE INFORMATION

Clamp Types

In addition to our standard strap clamps we now also have what we call Profile Cage Clamps that fit the Polaris Ranger/General, CanAm Defender and Maverick Trails. Because these can not pivot on a round cage we have both inward facing clamps and outward facing. If the clamp is available for your product it will be listed in the clamp size options as "PF-IN" for inward facing clamps or "PF-OUT" for outward facing clamps. These are the same price as our strap clamps.

Color Descriptions

Satin (raw aluminum) – A bright and shiny / smooth aluminum machine finish with no coating.
(ONLY BUY THIS ONE IF YOU PLAN TO polish, paint or powder coat)

Bright Black Anodized – bright dip black anodizing applied
(A bright and shiny deep black color with corrosion protection)

Bright Clear Anodized – bright dip clear anodizing applied (IF YOU WANT SILVER THIS IS THE BEST CHOICE) (Still very bright and shiny but offers corrosion protection and some scratch resistance)

Polished Finish – A professionally polished mirror / chrome like finish
(not offered on rollcage accessories)
