

GMRSV-2

INTRODUCTION

The GMRSV-2 is designed to provide an audio/video input to the OEM overhead video screen from the aftermarket radio, and provide the audio/video input from the rear seat control panel to the aftermarket radio.

Note: The GMRSV-2 is designed to work with the overhead video monitors that do not have the DVD player built in.

APPLICATIONS

CADILLAC

Escalade <i>with NAV</i>	2012-up
--------------------------	---------

Suburban <i>with NAV</i>	2012-up
Tahoe <i>with NAV</i>	2012-up

GMC

Sierra <i>with NAV</i>	2012-up
Yukon <i>with NAV</i>	2012-up

INTERFACE COMPONENTS

- [16-pin GMLAN RSE harness](#)

TOOLS REQUIRED

- Cutting tool • Tape • Crimping tool
- Connectors (i.e. butt-connectors, bell caps, etc.)

INSTALLATION INSTRUCTIONS

Important: Before beginning any of the following, disconnect the negative battery terminal to prevent an accidental short circuit.

From the 16-pin harness

- Connect the "To DVD" RCAs to the aftermarket radios audio/video input. Plug **Yellow** in to video-in, **Red** to right audio-in, and **White** to left audio-in.
- Connect the "From DVD" RCAs to the aftermarket radios audio/video output. Plug **Yellow** in to video-out, **Red** to right audio-out, and **White** to left audio-out.
- Connect the loose **Black** wire to ground.
